To: Hamilton County Drainage Board

Re: J. W. Brendle Drain, Wexley Chase Arm

'Fax (317) 776-9628

Attached is a petition filed by GWZ-Z Development LLC along with a non-enforcement request, plans, calculations, quantity summary and assessment roll for the Wesley Chase Arm, J. W. Brendle Drain to be located in Clay Township. I have reviewed the submittals and petition and have found each to be in proper form.

I have made a personal inspection of the land described in the petition. Upon doing so, I believe that the drain is practicable; will improve the public health; benefit a public highway and be of public utility; and that the costs, damages, and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited. The drain will consist of the following:

6" SSD	7,875 ft	15" RCP	594 ft	24" RCP	199 ft
12" RCP	1,829 ft	18" RCP	367 ft		

The total length of the drain will be 10,864 feet.

The retention ponds (lakes) located in Common Areas B and C are to be considered part of the regulated drain. Only the inlet and outlet will be maintained as part of the regulated drain. The maintenance, such as mowing, of the ponds (lakes) will be the responsibility of the Homeowners Association. The Board will however, retain jurisdiction for ensuring the storage volume for which the lake was designed will be retained. Thereby, allowing no fill or easement encroachments.

The subsurface drains (SSD) to be part of the regulated drain are those located under the curbs and those main lines between lots or in rear yards. Only the main SSD lines, which are located within the easement (right of way), are to be maintained as regulated drain. Laterals for individual lots will not be considered part of the regulated drain. The portion of the SSD which will be regulated other than those under curbs are as follows:

Within Common Area B in the dry basin.

I have reviewed the plans and believe the drain will benefit each lot equally. Therefore, I recommend each lot be assessed equally. I also believe that no damages will result to landowners by the construction of this drain. I recommend a maintenance assessment of \$10.00 per acre for common areas and platted lots, \$10.00 per acre for roadways with a \$65.00 minimum. With this assessment the total annual assessment for this drain/this section will be \$2,956.10.

The petitioner has submitted surety for the proposed drain at this time. Surety will be submitted prior to the approval of the Hamilton County Board of Commissioners/commencement of construction. The sureties which are in the form of a Letter of Credit are as follows:

Agent: Madison Community Bank	Agent: Madison Community Bank
Date: July 16, 2003	Date: July 16, 2003
Number:3225	Number:3226
For: Erosion Control	For: Storm Sewers
Amount:\$48,075.00	Amount:\$139,898.00

Parcels assessed for this drain may be assessed for the Long Branch Drain at sometime in the future. Parcels assessed for this drain will be assessed as the J. W. Brendle Drain.

I believe this proposed drain meets the requirements for Urban Drain Classification as set out in IC 36-9-27-67 to 69. Therefore, this drain shall be designated as an Urban Drain.

I recommend that upon approval of the above-proposed drain that the Board also approve the attached non-enforcement request. This request is for the reduction of the regulated drain easement to those easement widths as shown on the secondary plat for Wexley Chase as recorded in the office of the Hamilton County Recorder.

A recomprend the Board set a hearing for this proposed drain for November 24, 2003.

ton C. Ward

Hamilton County Surveyor

KCW/llm

STATE OF INDIANA)	(Revised 2/1986)
COUNTY OF HAMILTON))	
	DRAINAGE BOARD ty Surveyor, Courthouse,	Noblesville, IN 46060
In the matter c	f Wexley Chase	Subdivision,
Section	Drain Petiti	on.

Petitioner is the owner of all lots in the land affected by the proposed new regulated drain. The drainage will affect various lots in Wexley Chase, a subdivision in Hamilton County, Indiana. The general route of such drainage shall be in existing easements and along public roads as shown in the plans on file in the Surveyor's Office.

Petitioner believes that the cost, damages and expenses of the proposed improvement will be less than the benefits which will result to the owners of the land likely to be benefited thereby. Petitioner believes the proposed improvements will:

(a) improve public health

្រុ

- (b) benefit a public street
- (c) be of public utility

Petitioner agrees to pay the cost of construction of the drainage system and requests periodic maintenance assessments by the Board thereafter.

The Petitioner also agrees to the following:

- 1. To provide the Drainage Board a Performance Bond for the portion of the drainage system which will be made a regulated drain. The bond will be in the amount of 100% of the Engineers estimate. The bond will be in effect until construction of 100% of the system is completed and so certified by the Engineer.
- 2. The Petitioner shall retain an Engineer throughout the construction phase. At completion of the project the Petitioner's Engineer shall certify that the drainage This copy printed from White Christman beam main taking on the one of the project is been constructed as per construction plans.

- 3. The Petitioner agrees to request in writing to the County Surveyor any changes from the approved plan and must receive written authorization from the County Surveyor prior to implementation of the change. All changes shall be documented and given to the Surveyor to be placed in the Drain File.
- 4. The Petitioner shall instruct his Engineer to provide a reproducable print on a 24" X 36" mylar of the final design of the Drainage System. This shall be submitted to the County Surveyor prior to the release of the Performance Bond.
- 5. The Petitioner shall comply with the Erosion Control Plan as specified on the construction plans. Failure to comply with the Erosion Control Plan shall be determined by the Board as being an obstruction of the drainage system. The County Surveyor shall immediately install or repair the needed measures at Petitioners cost as per IC 36-9-27-46.

The Petitioner further requests that the Drain be classified as an Urban Drain.

FINDINGS AND ORDER

CONCERNING THE MAINTENANCE OF THE

J. W. Brendle Drain, Wexley Chase Arm

On this 24th day of November 2003, the Hamilton County Drainage Board has held a hearing on the Maintenance Report and Schedule of Assessments of the J. W. Brendle Drain, Wexley Chase Arm.

Evidence has been heard. Objections were presented and considered. The Board then adopted the original/amended Schedule of Assessments. The Board now finds that the annual maintenance assessment will be less than the benefits to the landowners and issues this order declaring that this Maintenance Fund be established.

One Hamilton County Square Noblesville, Indiana 46060-2230

To: Hamilton County Drainage Board

June 21, 2005

Re: JW Brendle Drain: Wexley Chase Arm

Attached are as-builts, certificate of completion & compliance, and other information for Wexley Chase. An inspection of the drainage facilities for this section has been made and the facilities were found to be complete and acceptable.

During construction, changes were made to the drain, which will alter the plans submitted with my report for this drain-dated October 17, 2003. The report was approved by the Board at the hearing held November 24, 2003. (See Drainage Board Minutes Book 7, Pages 258-260) The changes are as follows:

Structure:	Length:	Size	Material:	Up Invert:	Dn_Invert	Grade:	Length Changes:

The length of the drain due to the changes described above is now 8,751 feet.

The non-enforcement was approved by the Board at its meeting on November 24, 2003 and recorded under instrument #200400018963.

The following sureties were guaranteed by Madison Community Bank and released by the Board on its June 13, 2005 meeting.

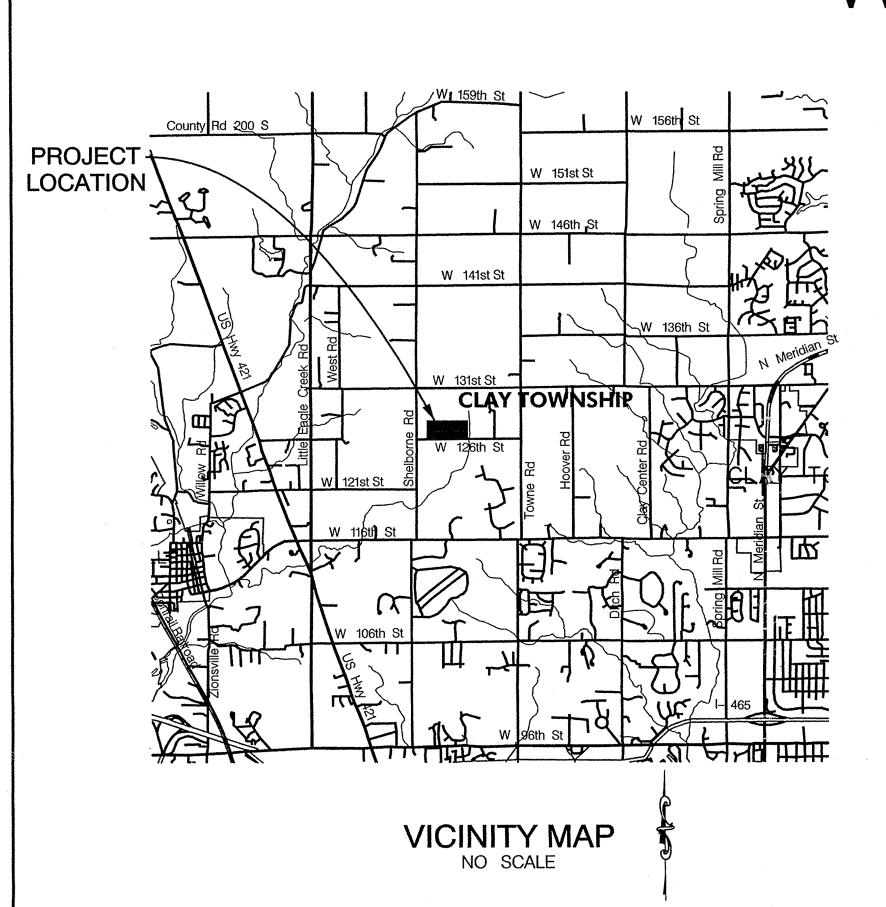

Bond-LC No: 3226 Insured For: Storm Sewers Amount: \$139,898 Issue Date: June 16, 2003 Bond-LC No: 3225 Insured For: Erosion Control Amount: \$48,075 Issue Date: June 16, 2003

I recommend the Board approve the drain's construction as complete and acceptable.

Sincerely,

Kenton Q. Ward, Hamilton County Surveyor

KCW/slm
