TO: Hamilton County Drainage Board

RE: Brentwood Village Drain

Attached is a petition, non-enforcement request, plans, calculations, quantity summary and assessment roll for the Brentwood Village Drain. I have reviewed the submittals and petition and found each to be in proper form.

I have made a personal inspection of the land described in the petition. Upon doing so, I believe that the drain is practicable; will improve the public health; benefit a public highway and be of public utility; and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited. The drain will consist of the following:

6" SSD	6508ft	24" RCP	773ft
12" RCP	1244ft	29x45 ERCP	150ft
15" RCP	560ft		
18" RCP	2126ft		

The total length of the drain will be 11,361 feet.

The retention pond (lakes) located in Block A on Lot 38 and Block B and Lots 1-3 is not to be considered part of the regulated drain. Only the inlet and outlet will be maintained as part of the regulated drain. The maintenance of the pond (lake) will be the responsibility of the Homeowners Association. The Board will however, retain jurisdiction for ensuring the storage volume for which the lake was designed will be retained. Thereby, allowing no fill or easement encroachments.

Included in the above lengths is the offsite storm drain, which runs through the James and Beth Ann Traylor property (10-20-00-00-005.000) This offsite system is to be maintained between

STORM MH #1 on the North edge of the proposed Worthington Subdivision to the Lake in Block A as shown on SHEET #2, development plan, for this subdivision. A fifteen (15') foot easement was given by Traylor to Langston, the Developer, per instrument NO 9506563 as recorded in the Hamilton County Recorder's Office. I recommend that the Board enforce the statutory thirty (30') foot easement. The additional fifteen (15') foot would lay East of the granted easement described in the above referenced instrument.

The offsite will terminate in STORM MH#1 as described above. The storm sewer system for the proposed Worthington Subdivision will be the maintenance responsibility for the City of Carmel.

The subsurface drains (SSD) to be part of the regulated drain are those located under the curbs and those main lines between lots or in rear yards. Only the main SSD lines which are located within the easement/right of way are to be maintained as regulated drain. Laterals for individual lots will not be considered part of the regulated drain. The portion of the SSD which will be regulated other than those under curbs are as follows: Between Lots 6 and 8; 5 and 6 and 10 and 11; Rear of Lots 17 to 20, 26 to 29 and between the lakes in Blocks A and B and 146th Street

I have reviewed the plans and believe the drain will benefit each lot equally. Therefore, I recommend each lot be assessed equally. I also believe that no damages will result to landowners by the construction of this drain. I recommend a maintenance assessment of \$25.00 per lot, \$5.00 per acre for roadways, with a \$25.00 minimum. With this assessment the total annual assessment for this drain/this section will be \$ 1113.⁵⁰

Parcels assessed for this drain may be assessed for the Wheeler-Beals or Cool Creek Drain at sometime in the future.

I believe this proposed drain meets the requirements for Urban Drain Classification as set out in IC 36-9-27-67 to 69. Therefore, this drain shall be designated as an Urban Drain.

I recommend that upon approval of the above proposed drain that the Board also approve the attached non-enforcement request. This request is for the reduction of the regulated drain easement to those easement widths as shown on the secondary plat for Brentwood Village as recorded in the office of the Hamilton County Recorder.

Page #3

I recommend the Board set a hearing for this proposed drain for May 1995.

Kenton C. Ward
Hamilton County Surveyor
KCW/no

STATE OF INDIANA)
) SS:
COUNTY OF HAMILTON)

TO: Hamilton County Drainage Board, Noblesville, Indiana
% County Surveyor, Courthouse, Noblesville, Indiana

In the matter of ~~NOBLE ACRES~~ Brentwood Village Subdivision,
Section _____ Drain Petition.

Petitioner is the owner of all lots in the land affected by the proposed new regulated drain. The drainage will affect various lots in ~~NOBLE ACRES~~ Brentwood ~~NOBLE ACRES~~ Village, a subdivision in Hamilton County, Indiana. The general route of such drainage shall be in existing easements and along public roads as shown in the plans on file in the Surveyor's Office.

Petitioner believes that the cost, damages and expenses of the proposed improvement will be less than the benefits which will result to the owners of the land likely to be benefited thereby. Petitioner believes the proposed improvement will:

- (a) improve public health
- (b) benefit a public street
- (c) be of public utility

Petitioner agrees to pay the cost of construction of the drainage system and requests periodic maintenance assessments by the Board thereafter. The Petitioner also agrees to the following:

1. To provide the Drainage Board a Performance Bond for the portion of the drainage system which will be made a regulated drain. The bond will be in the amount of 100% of the Engineers estimate. The bond will be in effect until construction of 100% of the system is completed and so certified by the Engineer.

- 2. The Petitioner shall retain the Engineer throughout the construction phase. At completion of the project the Petitioners Engineer shall certify that the drainage system which is to be maintained as a regulated drain has been constructed as per construction plans.
- 3. The Petitioner shall request all changes from the approved plan prior to implementation of the change. All changes shall be documented and given to the Surveyor to be placed in the Drain file.
- 4. The Petitioner shall instruct his Engineer to provide a reproducible print on a 24" x 36" mylar of the final design of the Drainage System. This shall be submitted prior to the release of the Performance Bond.
- 5. The Petitioner shall comply with the Erosion Control Plan as specified on the construction plans. Failure to comply with the Erosion Control Plan shall be determined by the Board as being an obstruction to the drainage system. The Surveyor shall immediately install or repair the needed measures as per IC 36-9-27-46.

The Petitioner further requests that the Drain be classified as an Urban Drain.

**Re: Brentwood Villages Drain -
Sec. 1 Arm and Offsite**

Attached are as-builts, certificate of completion & compliance, and other information for Brentwood Villages Sec. 1 and Offsite. An inspection of the drainage facilities for this section has been made and the facilities were found to be complete and acceptable.

During construction, changes were made to the drain which will alter the plans submitted with my report for this drain dated April 11, 1995. The changes are as follows:

Str 22-23 was listed on the original report as 38' feet of 18" RCP. This structure consists of 38' feet of 12" RCP. The metal end section at structure number 26 was replaced with a beehive inlet and extended out to a metal end section at the end of lot 26. This new segment consists of 159' feet of 12" RCP. The metal end section at structure number 37 was replaced with a beehive inlet and extended out to a beehive inlet at the end of lot 17. This new segment consists of 141' feet of 12" RCP. Str 33-34 was omitted on the original report. This structure consists of 49' feet of 21" RCP. The outlet for the detention pond bordering lots 1, 2, and 3 originally consisted of 12" RCP at 25' feet. This outlet was replaced with twin 8" CMPs at 20' feet. The outlet for the detention pond bordering lot 38 originally consisted of 12" RCP at 15' feet. This was replaced with twin 8" CMPs at 10' feet. The 6" SSD for Block A and Block B was outletted into these ponds. The 6" SSD was not installed across any of the lots listed in the original report. Thus, the corrected total of 6" SSD is now 5,921 feet.

The length of the drain due to the changes described above is now **11,064 feet**.

The non-enforcement was approved by the Board at its meeting on May 22, 1995 and recorded under instrument #9609644543.

The bond or letter of credit from Amwest Surety Insurance Co., number 0022004500 for storm sewer and subsurface drains; number 0022004502 for monuments and markers; number

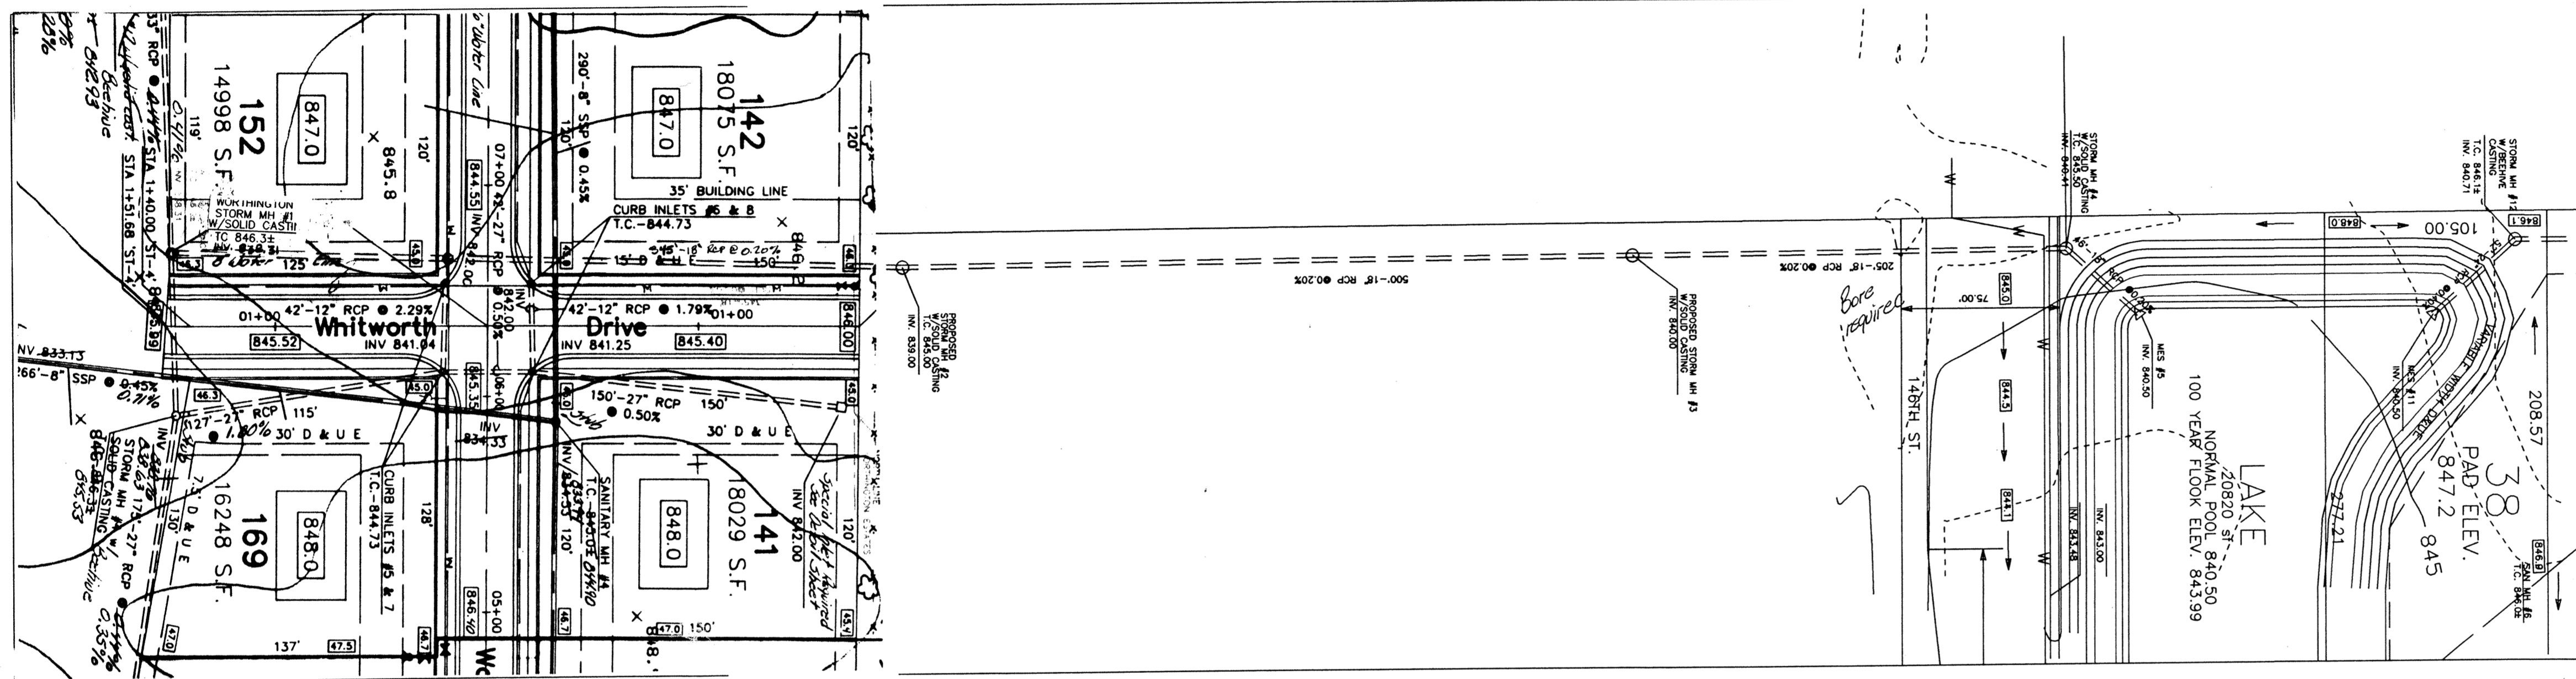

0022004501 for eroison control, dated June 5, 1995, in the amounts of \$144,200.00, \$2,000.00 and \$8,500.00, has expired.

I recommend the Board approve the drains construction as complete and acceptable.

Sincerely,

Kenton C. Ward,
Hamilton County Surveyor
