The system as constructed corresponds to the preliminary system set out in my report dated October 15, 1979. The Board held a hearing in this matter on November 19, 1979, at which time the Board approved all proposed sections from Section 4 through Section 12 for construction.

The subsurface drains shown on the As Built are those which will be maintained. All are in the road Right-of-Way, except that which serves the rear of Lots ~~425, 426, and 427~~. The portion to be maintained is those portions of the main lines which are within R/W or drainage easement. Laterals from the main line shall not be part of the regulated drain.
