Re: Cool Creek Drain – Springmill Villages Arm, 156th Street & Springmill Road – Roundabout

Attached are petition, plans, and other information for the proposed reconstruction of the Cool Creek Drain – Springmill Villages Arm, for the 156<sup>th</sup> Street and Springmill Road Roundabout project. The reconstruction was petitioned by the City of Westfield. During this reconstruction, the Cool Creek Drain – The Crossings – Section 1B Arm or the Springmill Villages Arm will be affected. Those changes are as follows:

**Cool Creek Drain**

Cool Creek Drain – The Crossings Section 1B Arm to the Springmill Villages Arm: The project will remove 203 feet of 12” RCP from Str. 139 running west to Str. 140 and moving Str. 130 east 10 feet, by removing 10 feet of 12” RCP. This is shown on Sheets 9 and 16 of the plans prepared by A&F Engineering, Inc., having contract number 36438, project number 1173468 and dated April 28, 2014.

The road project will remove 213 feet of the Cool Creek Drain, The Crossings Section 1B Arm of the Springmill Villages Arm.

The cost of the reconstruction is to be paid by the City of Westfield.

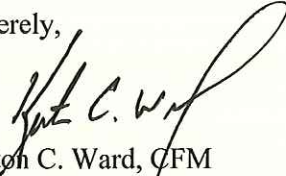

Since the petitioner is the City of Westfield and is being performed under public bid process, no bond is required for the relocation/reconstruction work.

The parcels affected by this project are as follows:

<u>Parcel</u>	<u>Owner</u>
08-09-14-01-04-006.000	Dennis & Gladys Hollinger
08-09-14-01-04-007.000	Dale & Carolyn Gentner

08-09-14-01-04-012.000	Springmill Villages Homeowners Assoc.
156 <sup>th</sup> Street ROW	City of Westfield
Springmill Road ROW	City of Westfield

I recommend the Board set a hearing for this proposed reconstruction for November 24, 2014.

Sincerely,

Re: Cool Creek Drain: Springmill Villages Arm – 156<sup>th</sup> & Springmill Rndbt.

Attached are a map and other information for the Springmill Villages Arm – 156<sup>th</sup> & Springmill Roundabout. An inspection of the drainage facilities for this section has been made and the facilities were found to be complete and acceptable.

During construction, changes there were no significant changes made to the drainage plans submitted with my report for this drain dated October 7, 2014. (See DRB. 16, Pages 19-22.) Therefore, the length of the drain removed remains at **-213 feet**.

Drainage easements were not affected as all work was done within existing road right of way and the project was paid for by the City of Westfield.

I recommend the Board approve the drain's construction as complete and acceptable.

Sincerely,

---
