" " " " " 1 of sewer tile 20x14 at station 76+50.

" " " " " 1 Stone retaining wall built from field rock laid up in mortar made from 1 ft Portland cement to 3 pts of good sharp sand. Dimension 10x2x6 ft = 4 1/2 Cu yd. to be placed at station 82+60 so constructed as to receive the tile at the proper grade and 1 1/2 ft above the base of the wall. The last three tile shall be sewer tile and the last one well bedded in the wall. From station 82+60 to 114+20 said ditch to be an open ditch 18 in wide in bottom with side slopes 1 to 1 or 45° with excavated from open ditch to be deposited not nearer than 7 ft from the break of the banks. At the change from 16" to 20" tile there shall be a sewer tile reducer used.

Arm No. 1 consists of 1 row of 14 inch tile from station 0 to station 14+20 at or near station 5 there shall be a Y sewer tile used for connection to private ditch at that point. Y to be 14x10. All tile used in the main Ditch and arm to be first class in every respect laid in the ditch at the established grade in a true line with joints well matched and to be left uncovered until inspected by the engineer in charge.

HAMILTON COUNTY SURVEYOR

COURT HOUSE

NOBLESVILLE, INDIANA 46060

April 27, 1983

To: Hamilton County Drainage Board

Re: R.J. Craig Drainage Area

Recently while preparing the Delaware Township Drainage Map, I uncovered additional information which was unknown until this time. This concerns the length of the Craig, location of the Bradburn, non-existence of the Manship and additional length of the White. The following is for future reference.

James Bradburn Drain, 1882 was an open drain consisting of an main ditch 5300 feet in length and a 100 foot Arm. 1500 feet of the main was later part of the Craig in 1899 and is included with that drain. In 1910 the Bradburn was tiled and consisted of 3900 feet of main ditch and a 100 foot Arm. The tile drain more or less followed the open ditch. This 1910 repair is also known as the Noah Manship.

The R.J. Craig was constructed in 1899 and consisted of 11,420 feet of main and 1420 feet of Arm.

The George White was constructed in 1916 and consists of 3660 feet main, 154 feet Arm 1 and 325 feet Arm 2.

In 1951 the system consisting of all 3 drains was repaired. At this time Arm 3 was added to the White consisting of 1275 feet and approximately 2450 feet of open ditch was added to the Craig.

In 1979 part of the White & Bradburn was reconstructed. This consisted of re-tiling 90 foot of the Bradburn and vacating 100 feet of the White. Of the 100 foot vacated, 40 foot was relocated so the length of the White was reduced by only 60 feet.

*Received  
9/26/83*

*FILED 8/17*

In 1982 part of the White and Bradburn Drains were again reconstructed. In this case 320 feet of the White and 340 feet of the Bradburn was vacated. Also 327 feet of the Bradburn & White was combined and relocated, 77 feet was added to Arm 1 of the White, 79 feet was added to the main White and 30 feet was added to the Bradburn. This involved the total reduction in footage of 164 feet of the White and if you add the combined portion of both drains to the Bradburn its length increases 17 feet.

Therefore, the lengths of these drains including mains and Arms are as follows.

R.J. Craig	15290 feet
James Bradburn	4017 feet
George White	5190 feet

Also, since its been determined that the Craig is legal 50' South of 106th Street the following changes should be made in the drainage shed.

✓ 14-12-00-00-005, 6.9 acres, add 4.9 acres at \$4.90.

✓ 14-12-00-00-001, 22.8 acres, add 0.5 acres at \$3.00.

✓ 14-01-00-00-011, 5.9 acres, increase from 4.4 acres at \$4.40 to 5.9 acres at \$5.90.

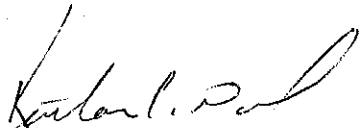

✓ 14-01-00-00-013, .67 acres, add .67 acres at \$3.00.

✓ 14-01-00-00-014, .326 acres, add .326 acres at \$3.00.

✓ 14-01-00-00-015, 142.2 acres, increase from 1.5 acres at \$3.00 to 95.0 acres at \$95.00.  
80 80

✓ Also parcel 14-01-00-00-008, .5 acres should be assessed 0.5 acres at \$3.00.

This parcel has been left off the assessment for some time.

*order of construction May 24-1951*

IN THE MATTER OF THE  
FISHERS DRAIN

No. A-7796

THE BOARD OF TRUSTEES OF  
THE TOWN OF FISHERS IN  
HAMILTON COUNTY, INDIANA, et al.,  
PETITIONERS EX-PARTE

**FILED**

APR 2 - 1951

*A. Joseph Baker*  
Clark Hamilton  
Circuit Court

REPORT SET FOR HEARING

*May 10 - 1951*

approximately 60 rods east of the southwest corner of section 1, township 17 north, range 4 east.

After a careful investigation of the drainage now in place we would

RECOMMEND the open ditch known as the R.J.Craig Ditch be reconstructed, establish a new alignment and grade and extended to a point 50 feet south and approximately 70 rods east of southwest corner of section 1, township 17 north, range 4 east, from Sta 0 to Sta 41 or Nickle Plate Railroad, 3 foot bottom from Railroad right-of-way to Sta 52 terminus 4 foot bottom, terminating in open branch. Clear all shrubs, and brush from banks on each side, pile brush and burn, all limbs overhanging ditch or field to be cut. All mud, slush, boulders or other material to be deposited not nearer than 5 feet from break of bank. <sup>5'-0</sup> *No BRUSH or shrubs to be covered unless authorized by Engr.* All excavated material to be leveled with some mechanical equipment. All fences to be taken down and replaced by the Contractor. He shall not buy any new material for replacements. The slopes where new cuts are made to be  $1\frac{1}{2}$  to 1, in old cuts the slope shall be made to conform with old slopes with least amount of damage. Clean out from under all railroad, County and private bridges, also the two pipes under railroad, also clean entrance and outlet to pipes under railroad.

### TILE DITCHES

There are two tile drain systems which are in need of repair.

The James Bradburn was constructed about 1910 consisting of 12" tile throughout, terminating in R.J.Craig Open Ditch. This Drain is in bad repair. The headwall needs repairing. In many places the tile are broken. The inlet at Sta 0 needs repair.

About 1917 there was another tile ditch constructed known as the George W. White ditch starting at or near the Bradburn ditch serving approximately the same land and same water shed. This ditch consists of one row of 20" tile terminating in the R.J.Craig Open Ditch. There are tile broken in several places. Headwall needs repairing, open inlets cleaned out and repaired, new grates on some of the openings. Check and clear obstruction in tile.

Build new inlet at end of White Ditch. 4'x4' concrete and make connection to all drains, 24" grating on top. Connect the catch basin or inlet of the Blackburn and White Drains with 12" pipe. New manhole at Bradburn. Repair Jt box where Bradburn and White intersect. New cast iron grate on Jt Box.

ARM 3. Now in place

Commencing at a point near northwest corner of lot #34 in S. Fishers Addition to Fishers; thence south on east side of Street intersecting the George White ditch at approximately 40 feet north of the southwest corner of lot 7 in Kimberlain Addition, a distance of approximately Sta 1275.0 feet.

This ditch has several open inlets indicating obstruction. It shall be opened up and cleared of all obstructions. All open inlets to be cleaned and all cross connections to be cleaned of all obstructions.

There are several open inlets located along Main Street east of railroad; they shall be opened and outlets cleared and repaired.
