TO: Hamilton County Drainage Board

RE: Crooked Creek Drain, Extension of North Augusta Arm #1  
(Walnut Creek Drive Extension)

Attached is a petition filed by G. William Armstrong of Guarantee Properties Limited Partnership, along with plans, calculations, and quantity summary for an arm extension to the Crooked Creek Drain. This proposed drain is located in Clay Township. I have reviewed the submittals and petition and have found each to be in proper form.

I have made a personal inspection of the land described below. Upon doing so, I believe that the drain is practicable, will improve the public health, benefit a highway and be of public utility and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited. The drain will consist of the following:

12" RCP – 33 feet	18" RCP – 16 feet
15" RCP – 54 feet	24" RCP – 359 feet

The total length of the drain will be 462 feet.

The extension of this arm shall begin at Str. 611 in the plans for Walnut Creek Drive Extension by Civil Site Group, Inc., having project number ADI.002, and last revision date of August 8, 2012. This structure is the terminus of the North Augusta Arm #1, per my report dated December 14, 2009, which was approved by the Board at hearing on February 22, 2010 (See Hamilton County Drainage Board Minutes Book 12, pages 420 to 421).

The cost of the arm is to be paid by the petitioner, Guarantee Properties Limited Partnership.

The petitioner has submitted surety for the proposed drain at this time. The sureties which are in the form of a Performance Bond are as follows:

Agent: Bond Safeguard Insurance Company  
Date: July 1, 2013  
Number: 5040921  
For: Storm Sewers  
Amount: \$88,644.00

This bond covers the original North Augusta Arm #1 of the Crooked Creek Drain and this extension as outlined in this report.

I believe this proposed drain meets the requirements for Urban Drain Classification as set out in IC 36-9-27-67 to 69. Therefore, this drain shall be designated as an Urban Drain.

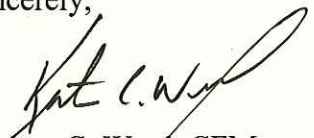

The parcels involved with this new arm extension are:

<u>Parcel</u>	<u>Owner</u>
17-13-07-04-01-005.000	Armtrust III, LLC
17-13-07-04-01-004.000	Armstrong Family Charitable Trust
17-13-07-04-01-003.000	Armstrong Family Charitable Trust
17-13-07-04-01-002.000	Armstrong Family Charitable Trust
98 <sup>th</sup> Street ROW	City of Carmel

The easement for the drain should be the existing drainage easement as described in the drainage easement granted by Armstrong Family Charitable Trust and Armtrust III, LLC, which are recorded in the Office of the Hamilton County Recorder as instrument numbers 2013024116 and 2013024115, respectively. These are the additional easements described in my report for North Augusta Arm #1.

I recommend that the Board set a hearing for this arm on September 23, 2013.

Sincerely,

Kenton C. Ward, CFM  
Hamilton County Surveyor

**FINDINGS AND ORDER FOR RECONSTRUCTION**

The matter of the proposed Reconstruction of the ***Crooked Creek Drain, Extension of North Augusta Arm #1 (Walnut Creek Drive Extension)*** came before the Hamilton County Drainage Board for hearing on ***September 23, 2013***, on the Reconstruction Report consisting of the report and the Schedule of Damages and Assessments. **To: Hamilton County Drainage Board**

**July 16, 2014**

**Re: Crooked Creek: Walnut Creek Dr. Extension**

Attached are as-builts, certificate of completion & compliance, and other information for Walnut Creek Dr. Extension. An inspection of the drainage facilities for this section has been made and the facilities were found to be complete and acceptable.

During construction, changes were made to the drain, which will alter the plans submitted with my report for this drain-dated August 5, 2013. The report was approved by the Board at the hearing held September 23, 2013. (See Drainage Board Minutes Book 15, Pages 176-177) The changes are as follows:  
 The 12" RCP was shortened from 33 feet to 28 feet. The 15" RCP was shortened from 54 feet to 47 feet. The 18" RCP was lengthened from 16 feet to 36 feet. The 24" RCP was lengthened from 359 feet to 425 feet. The length of the drain due to the changes described above is now **536 feet**.

The drainage easements are those as outlined in my original report and recorded under instrument numbers #2013024116 and #2013024115.

The following sureties were guaranteed by Bond Safeguard Insurance Company and released by the Board on its July 14, 2014 meeting.

**Bond-LC No:** 5040921  
**Insured For:** Storm Sewers  
**Amount:** \$88,644.00  
**Issue Date:** July 1, 2013

I recommend the Board approve the drain's construction as complete and acceptable.

Sincerely,

---
