IN THE MATTER OF

Joseph Koble

March 23 Special 1985

Examined and approved and ordered, constructed, Joshua Carson PB

REPORT OF DITCH VIEWERS

COMMISSIONERS' COURT.

Filed.

18...

Auditor.

WM. B. BURFORD, PRINTER, INDIANAPOLIS.

This copy printed from the Digital Archive of Handton County Surveyor's Office; One Hamilton Co, Square, Ste. 188, Noblesville, In 46060

To the Honorable Board of Commissioners of At awellow, County, Indiana:
We, the undersigned, appointed by this Court, at its, IEL, Special Term, 1896, to view a drain described in the
certified copy of a petition and order of Court for a Wetch , by fishe Noble and others,
handed us by the Auditor, would represent that according to said order we, on the day named therein, to-wit: the
of Achruan, 1895, in company with M. F. Catting have, a civil engineer, made an accurate
survey of the line of said proposed Welck from its source to its outlet. A plat of said Welck is filed herewith
including the survey by the engineer, marked "Exhibit"." We caused stakes to be set along said line, each one hundred feet, numbering
down stream, as shown by plat. We also made a computation of the total number of cuffic yards, of earth to be removed from said drain, and
estimated the total cost for the construction of the work at Our Awedred Shirty fin (100) Dollars. We also
apportioned and set apart to each parcel of land a share of said work in proportion to the benefits received, all of which will fully appear by a
tabular statement in this report. We have also set out by a statement below, the names of the owners of lands benefited with a description of each
tract of land, and the amount assessed against each tract. The depth of cut, the width at bottom, and width at top along said drain is also
shown in a tabular statement in this report. After a full and careful view and examination, we are of the opinion that the drain as located
by the surgey will be of Jublic utility and a benefit to general health
of the community, and the cost of construction will not exceed
the bruefits, derived from the construction of said ditch and
rice bruefit a public highway, and should by a tile ditch
Constructed as follows,
Der page 3,
The following statement shows who are benefited, the lands thereof and assessment thereon, location, length of each share, amount of assess-
ments, amount of benefits, amount of dirt to be removed from each share, price thereof per cubic yard, and total cost of each share:
