AL SPECIFICATIONS.

DESCRIPTION OF THE MANNER IN WHICH THE WORK SHALL BE DONE.

Depth of Cut.	Width at Bottom.
---------------	------------------

This ditch consists of 800 ft of tile ^{and} 15,288 ft of open ditch and must be repaired to its original specifications by removing all the mud and slush that is in it, the same to be deposited not nearer than 2 ft from the break of banks. All bushes, briars, and weeds must be cut and removed from ditch and banks. Overhanging trees, logs etc. must be removed. Tile portion must be repaired by removing all the broken tile and replacing them with first class new ones of the same dimensions. Any other obstructions of whatever nature must be repaired or removed from ditch.

Which would be benefitted by drainage which cannot however be accomplished in the best and cheapest manner without affecting the lands of others, he believes that such drainage can be best had by an open ditch commencing at a point about the center of the northwest quarter (1/4) of the North East quarter (1/4) of section Four (4) township nineteen (19) north. Range three (3) East, running thence in a South and South East direction along an old ditch or water channel to a point about thirty (30) Rods west of the center of section three (3) township and range as above thence in a north and northeast direction along said ditch or water channel to a point where said water channel crosses the section line between sections twenty-six (26) and thirty-five (35) if in the opinion of the drainage commissioners said terminus will give sufficient outlet for drainage for all lands found to be benefitted from the source to said terminal point.

He believes also that a proper work to accomplish such drainage would affect the following lands in Hamilton County in addition to the tract above mentioned to wit:

State of Indiana }
Hamilton County }⁵⁵ Petition for Drain

In the Hamilton Circuit
Court February Term
1892

To the Honorable the Judge of The Hamilton Circuit Court

The undersigned respectfully represents that he is seized in fee-simple of the following lands situate in Adams Township in said County and State to-wit Part of the north west Quarter ($\frac{1}{4}$) of the northeast Quarter ($\frac{1}{4}$) and part of the northeast Quarter ($\frac{1}{4}$) of the northeast Quarter ($\frac{1}{4}$) of section Four (4) township nineteen (19) north. range three (3) east. Which would be benefited by drainage which cannot however be accomplished in the best and cheapest manner without affecting the land of others he believes that such drainage can be best had by an open ditch commencing at a point about the center of the northwest Quarter ($\frac{1}{4}$) of the northeast Quarter ($\frac{1}{4}$) of section Four (4) township nineteen (19) north. range three (3) east. running thence in a south and south east direction along an old ditch or water channel to a point about thirty (30) Rods west of the center

of section Three (3) Township and range as above, thence in a north and northeast direction along ~~said~~ said ditch or water channel to a point where said water channel crosses the section line between sections twenty (20) six and thirty (30) five, if in the opinion ^{of the drainage commissioners} said terminus will give sufficient outlet for drainage for all lands found to be benefited from the source to said terminal point. He believes also that a proper work to accomplish such drainage would affect the following lands in Hamilton County in addition to the tract above mentioned to-wit

Owner Description

He also believes that the public health will be promoted by the drainage of said lands. Also that a free Pike leading from the town of Sheridan to the town of Cicero of said County of Hamilton and known as the Adams Township gravel Road will be benefited. Also a public highway running north and south along and over the section line dividing sections three (3) and Four (4) will be benefited by the drainage proposed. Also that the same will be of public utility. He also believes that the costs and expenses of such drainage will be less than the benefits to the owners of lands likely to be benefited thereby. He therefore prays the Court for the establishment and construction of said drainage.
