Viewers' Report of

Wm. Leber et al.

Ditch.

*Wm. Leber from
the Free Drain Div*

To the Honorable Board of Commissioners of *Hamilton* County, Indiana:

We, the undersigned, appointed by this Court, at its Term, 1, to view a drain described in the certified copy of a petition and order of Court for a *ditch*, by *Wm. Leber* and others, handed us by the Auditor, would represent that according to said order we, on the day named therein, to wit: The day of *1*, in company with *J. Mitchell*, a civil engineer, made an accurate survey of the line of said proposed *drain* from its source to its outlet. A plat of said *drain* is filed herewith, including the survey by the engineer, marked "Exhibit *B*." We caused stakes to be set along said line, each one hundred feet, numbering down stream, as shown by plat. We also made a computation of the total number of cubic yards of earth to be removed from said drain, and estimated the total cost for the construction of the work at *\$ 845.85* Dollars.

We also apportioned and set apart to each parcel of land a share of said work in proportion to the benefits received, all of which will fully appear by a tabular statement in this report. We have also set out, by a statement below, the names of the owners of lands benefited, with a description of each tract of land, and the amount assessed against each tract. The depth of cut, the width at bottom, and width at top along said drain, is also shown in a tabular statement in this report. After a full and careful view and examination, we are of the opinion that the drain, as located by the survey, will be of public utility and utility and will be conducive to the public health and convenience, and that said ditch will benefit five public highways, and that said drainage can best be accomplished by an open drain from its source to its outlet, as indicated on page 3 of this report.

The following statement shows who are benefited, the lands thereof and assessments thereon, location, length of each share, amount of assessments, amount of benefits, ~~amount of dirt to be removed from each share, price thereof per cubic yard, and total cost of each share:~~

NAMES OF OWNERS.	DESCRIPTION OF LANDS.	Section.	Township.	Range.	Aeres Assessed.	Ft/dths Assessed.	Aeres Benefited.	Ft/dths Benefited.	Amount of Benefits.	Amount of Assessments.	From Station.	To Station.	Feet Long.	Cubic Yards to be Removed	Price per Cubic Yard.	Cost of Construction of Share.
