Re: Little Cicero Creek Drain, 276th Street Extension, 2023

Attached is a petition, drain map, drainage shed map and schedule of assessments for the extension of the Little Cicero Creek Drain. This proposed drain is located in Jackson Township. The petition was filed by the Indiana Department of Transportation on April 8, 2022.

I have made a personal inspection of the land described below. Upon doing so, I believe that the drain is practicable, will improve the public health, benefit a public highway and be of public utility and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited. The drain will consist of the following:

Open Ditch 222 ft.

The total length of the drain will be 222 feet.

The extension will begin at the existing northern point of the 2021 extension and extend 138 feet north to the new northern right of way line of 276th Street. Also, a portion of Little Cicero Creek beginning approximately 550 feet downstream of the north right of way line of 276th Street to the place the creek crosses the US 31 right of way and running 84 feet downstream to a point the creek again crosses the said right of way.

The current rates for the Little Cicero Creek Drain are \$10.00 per acre for roads. The annual maintenance collection for this extension will be \$108.00.

The nature of maintenance work required is as follows:

1. Bank erosion protection and/or seeding as might be required;
2. Removal of debris and/or blockages from existing open drain;

3. Removal of beaver dams;
4. Any other repairs necessary to restore proper flow to the open ditch.

The frequency with which maintenance work should be performed is annually as required by the condition of the drain.

The easements for the drain should be set at 75' from top of bank as set out in IC 36-9-27-33.

I recommend that the Board set a hearing for this proposal for February 27, 2023.

Sincerely,

Kenton C. Ward, CFM
