Re: Masthead Drain, Sections 7, 8 & 9 Arms

Attached is a petition, drain map and drainage shed map for Sections 7, 8 & 9 Arms to the Masthead Drain. The petition was filed in April 1992 by the Hamilton County Commissioners.

The petition is to place the drainage facilities in Sections 7, 8 & 9 of Masthead on a maintenance program. The drainage facilities in Sections 10 to 16 of Masthead are currently on a maintenance program. The facilities proposed to become part of the regulated drain are listed below by section.

Section 7

- ✓ A) 135' - 36" pipe under Fall Creek Road between lots 47 and 54 of Geist Woods and lot 215 of Masthead Section 7.
- ✓ B) 140' - 12" CMP in right-of-way Fall Creek Road in front of lot 215 and outletting in ravine which crosses lot 215 and outlets in open ditch between lots 215 and 216.
- ✓ C) 60' open ditch (ravine described above) across front of lot 215. 580' open ditch from outlet of 36" pipe under Fall Creek Road to Geist Reservoir running between lots 215 and 216 and through Block RR.
- ✓ D) 20' - ^{12"} ~~12"~~ CMP & 253' - 12" CMP in Block R and Block RR.
- ✓ E) 372' CMP in Block Q, between lots 217 and 218 and outletting in Block RR.
- ✓ F) ^{SILE} 120' pipe under Fall Creek Road between the Common Area in Geist Woods and lot 221 in Masthead Section 7.
- ✓ G) 180' open ditch from above described pipe under Fall Creek Road and Geist Reservoir between lots 221 of Section 7 and lots 233 and 234 in Section 8 of Masthead.

The total length of the proposed drain for Section 7 is **1860 feet.** ✓

Section 8

- ✓ A) 216' - 12" CMP running from Farragut Circle to the reservoir through Block V and between lots 254 and 255.
- ✓ B) 462' - 12" CMP running from Block S to the ravine at the rear of lots 258-259, pipe section runs through Block S and between lots 258-259.
- ✓ C) 96' - 12" CMP running from lot 227 to lots 258-257 under DeCatur Avenue.
- ? - D) 340' - open ditch between above described pipe under DeCatur Avenue to the reservoir along rear of lots 255, 256, 257, 258, 259 and 260.
- ✓ E) 185' - 12" CMP running between Block U and Geist Reservoir between lots 242 and 243.
- ✓ F) 150' - 12" CMP running between DeCatur Avenue and open ditch on North and West side of lot 236.
- ✓ G) 388' - 12" CMP running from Blocks T and U to the reservoir. This pipe section runs through Block T between lots 235 and 238 and through Block U between lots 237 and 238. This includes the 80 feet of 18" CMP which was placed between lots 235 and 238 in 1988.

- ✓ H) 240' - open ditch running from the above described line which drains DeCatur Avenue and to an inlet in the junction of the above described lines from Blocks T and U. Ditch runs across rear of lots 236 and 237. This area has now been filled. Upon site inspection, plastic pipe was used to extend the drain to and through the headwall into the reservoir. This pipe is accepted into the system.
- ✓ I) Open ditch along west sides of lots 233 and 234 has been described with Section 7.
- ✓ J) The 36" pipe running from Fall Creek Road to the reservoir along the east side of lot 263 is part of the Windjammer Drain. This was done per my report dated November 21, 1989 which was approved at the hearing on February 20, 1990.

The total length for this section is **2077 feet**.

Section 9

- A) The 36" CMP along the west side of lot 264 running between Fall Creek Road and the reservoir is part of the Windjammer Drain. Also, the section of pipe between Fall Creek Road and the reservoir between lots 272, 273, 274 and 275 is part of the Windjammer Drain per my report dated January 3, 1989. Both of these pipe sections will remain as part of the Windjammer Drain.
- ✓ B) 180' - open drain, 56' - 12" CMP between Spruance Ct. and the reservoir along the north side of lot 291.
- ✓ C) 85' - 12" CMP between Block X and the reservoir running through Block X and lot 291.
- ✓ D) 100' - open ditch, 125' - 12" CMP between Nautilus Circle and the extended 36" pipe described in "A" above, running across lot 274.
- ✓ E) 100' - open ditch, 186' - 12" CMP between Block W and Nautilus Circle running to the reservoir across the north side of lot 268 and between lots 268 and 269.
- ✓ F) 290' - open ditch, 148' - 12" CMP running from Halsey Drive to the reservoir between lots 281, 282, 283 and 284.
- ✓ G) 70' - 15" pipe under Fall Creek Road.
- ✓ H) 90' - 15" RCP, 70' - open ditch running from "G" above to the open ditch described in "F" above running across lot 282. The pipe extension was approved and constructed in 1990 by Michael Hale, designed by P.I. Cripe, Inc., job number 89-353-00000.
- ✓ I) 88' - 12" CMP, 50' - open ditch, running from Halsey Drive to the inlet placed on the extended line described in "H" above. This runs in the right-of-way of Fall Creek Road.

The total length for this section is **1638 feet**. ✓

The total length for all 3 sections is **5,575 feet**.

I recommend to the Board that the drainage easements shown on the recorded plats for Sections 7, 8 and 9 be accepted as the easements for the proposed extension of the regulated drain. These are recorded as instrument numbers 37335, 37336 and 847368 respectively.

The current maintenance assessment for the Masthead Drain is \$2.00 per acre with a \$20.00 minimum. The current balance in the fund is \$22,274.45. I do not recommend an increase in assessment and recommend that the proposed extension be assessed at the current rate for the Masthead Drain.

Reconstruction costs shall be set at \$0.00. Upon review of the proposal, I recommend that damages for all tracts be set at \$0.00.

I request that a hearing be set for this item for April 1998.

KCW/jh

Kenton C. Ward,
Hamilton County Surveyor

IN THE MATTER OF THE MASTHEAD DRAIN
HAMILTON COUNTY DRAINAGE BOARD

Comes now the Board of Commissioners of Hamilton County, who petition the Hamilton County Drainage Board as follows:

1. They are the duly elected Board of Commissioners of Hamilton County, Indiana.
2. That in that capacity they are responsible for the drainage of public highways.
3. That they now desire that a regulated drain be reconstructed in Fall Creek Township which involves Fall Creek Road and various areas surrounding the road in the drainage shed.
4. The names and address of each owner affected by the proposed public drainage are attached hereto, made a part hereof, and marked Exhibit "A", which area of land involved in the proposed drainage area is located in section 9, township 17 north, range 5 east, Hamilton County, Indiana, being Sections 7, 8 & 9 of Masthead.
5. No other public lands or owners are located in the area which would affect improvement.
6. That the general route of the proposed drain is shown in the attached development plans for Masthead Sections 7, 8 & 9 which are marked Exhibit "B" and made a part herof.
7. That in the opinion of the Petitioner, the costs, damages, and expenses of the proposed improvement will be less than the benefits which will result to the owners of the land to be benefited thereby.
8. That in the opinion of Petitioner, the proposed improvement will benefit a public highway in Hamilton County, Indiana.
9. That the name of the attorney representing Petitioner in the drainage petition is Michael Howard, 694 Logan St., P.O. Box 410, Noblesville, Indiana.
10. That Petitioners shall pay the cost of notice and all legal costs if the Petition is dismissed.
11. Petitioner shall post a bond, if required, to pay the cost of notice and all legal costs in the case the improvement is not established.

FINDINGS AND ORDER
CONCERNING THE MAINTENANCE OF THE
Masthead DRAIN

On this 27th day of April 1998, the Hamilton County Drainage Board has held a hearing on the Maintenance Report and Schedule of Assessments of the Masthead

Evidence has been heard. Objections were presented and considered. The Board then adopted the original/amended Schedule of Assessments. The Board now finds that the annual maintenance assessments will be less than the benefits to the landowners and issues this order declaring that this Maintenance Fund be established.

)
COUNTY OF HAMILTON) DRAINAGE BOARD

IN THE MATTER OF MASTHEAD DRAIN

Notice is hereby given that the Hamilton County Drainage Board at its regular meeting April 27, 1998 adopted the reconstruction report of the Surveyor and the Amended Schedule of damages and assessments including annual assessment for periodic maintenance, finding that the costs, damages and expense of the proposed improvement would be less than the benefits which will result to the owner of lands benefited thereby.

The Board issued an order declaring the proposed improvement established. Such findings and order were marked filed and are available for inspection in the Office of the Hamilton County Surveyor.

If judicial review of the findings and order of the Board is not requested pursuant to Article VIII of the 1965 Indiana Drainage Code as amended within twenty (20) days from the date of publication of this notice, the findings and order shall become conclusive.

Notes & Sketch: See attached Map

It was discovered in the field that the 12" CMP running between lots 255 & 260 had been repaired by the property owners around 1997. An inlet (Str 900) was set on the pipe and the CMP was replaced with plastic pipe from the new inlet to its confluence with the reservoir.
