RE: Mill Creek Section 8

Attached is a petition, plans and assessment roll for Mill Creek, Section 8. I have reviewed the petition and submittals and found them to be in proper form.

I have personally reviewed the plans and inspected the site and believe the proposed drain to be practicable, will improve public health, benefit a public highway, be of public utility and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited.

Attached is an assesement roll for these sections of the drain. I have considered the benefits to each tract in compling the assesement roll. In doing so I believe that each tract has equal benefit on the drain. With a \$25.00 per lot assessment and \$2.00 per acre on the roads, the total yeraly assesment will be \$334.80.

APR 12 1985

The drain will consist of the following items.

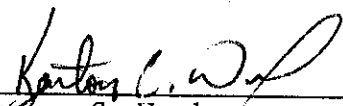

Open ditch (including part of Sly Run)	2555.49 ft
24" RCP	435 ft
12" RCP	35 ft
15" RCP	177 ft
6" SSD	1127.48 ft

HAMILTON COUNTY ENGINEER
Mary Ellen Oldham

The total footage of the drain will be 4329.97 feet.

Also attached is a non enforcement request. This request should be approved at the hearing

A hearing for this drain should be set for 9:00am on June 10, 1985.

RE: Mill Creek, Section 8 Drain

I have inspected the drainage facilities for the Mill Creek Drain, Section 8 and have found them to be complete and acceptable. The project engineer has submitted the certificate of completion and compliance and a as built reproducible mylar of the drainage plan.

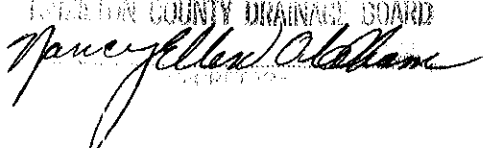

A change was made during construction on the open ditch on Lots 58 and 59. The swale was relocated so as to conform more naturally with existing topography. In doing so, seventy-five (75') feet was added to the drain. The final length is 4404.97 feet.

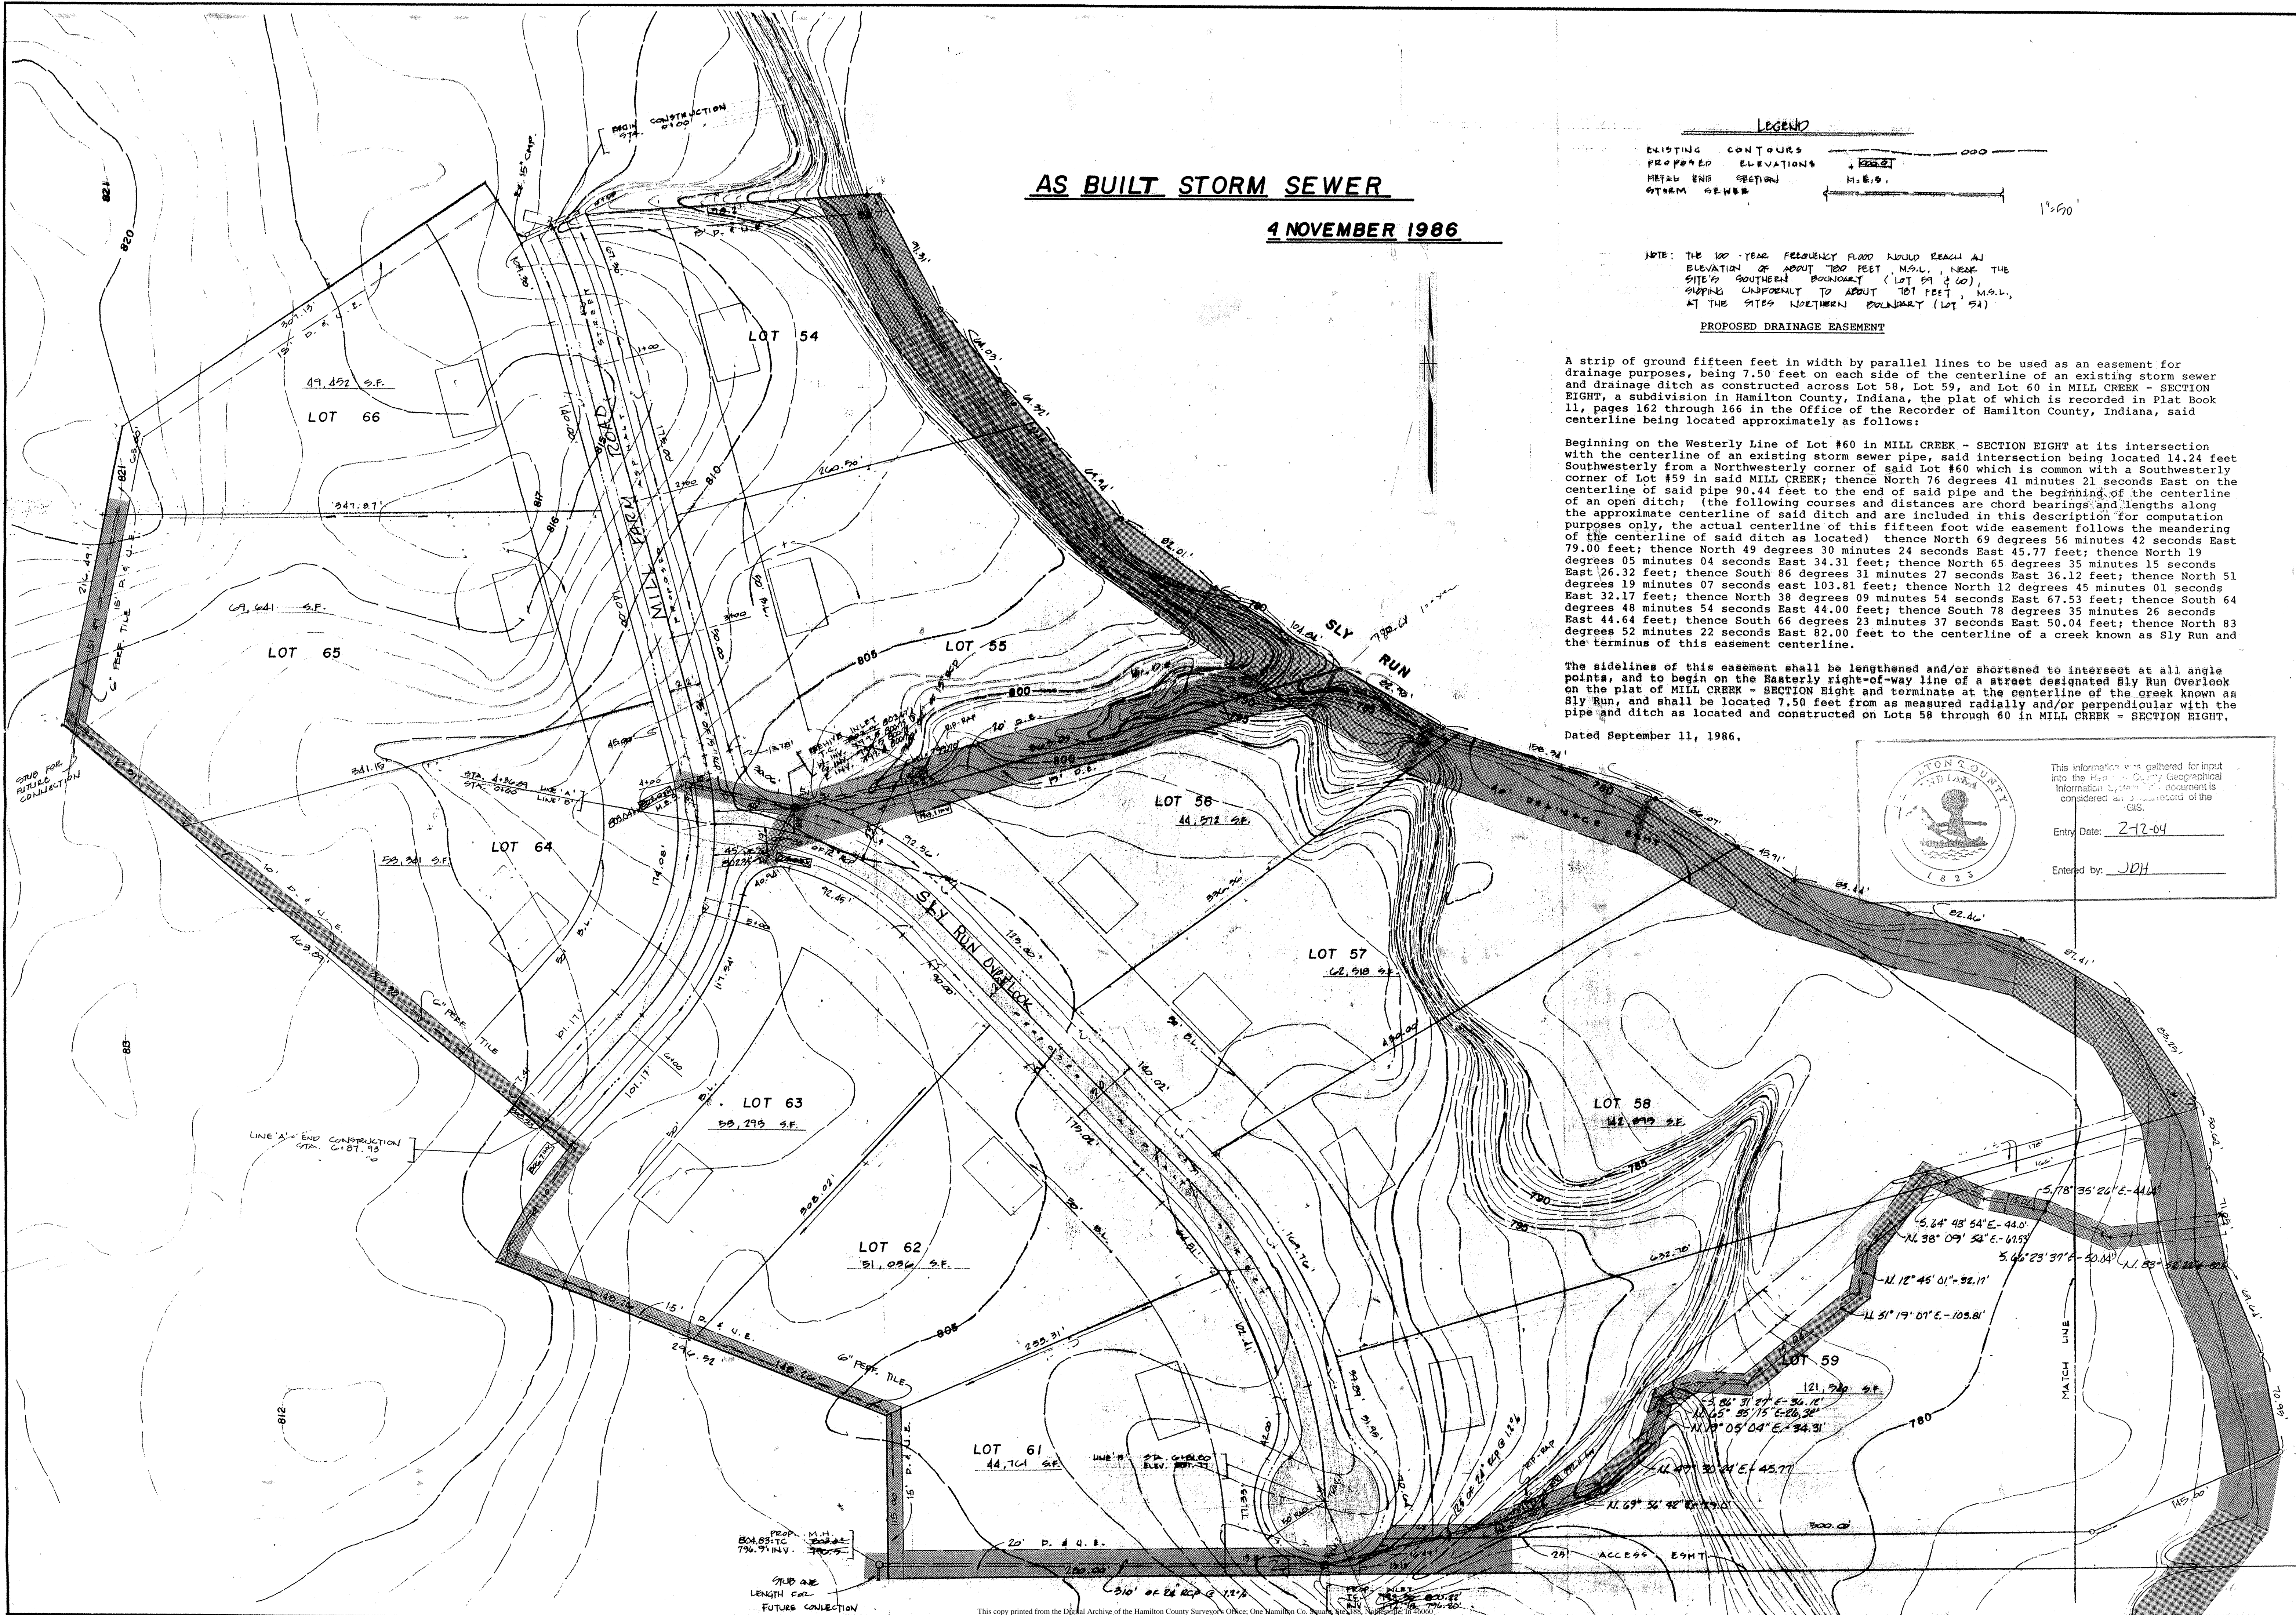

At this time I also recommend the Board approve the non-enforcement request for this plat, along with the drainage facilities as constructed.
