IN THE MATTER OF HEARING THE  
DRAINAGE COMMISSIONERS' REPORT  
ON MILLER AND CARSON DRAINAGE PETITION.

Comes now, Howard Carson and Jacob Miller, for the petitioners, and shows to the Board of Commissioners that they personally served the required notices on the landowners not named in the petition but whose lands were described in the in the said Drainage Commissioners' report as lands that would be affected by the construction of the proposed drainage. They further showed that March 3rd 1914, was the time set in said notices for the hearing of the said Drainage Commissioners' report and that they served the said notices more than ten days before said date.

The proof of notices being sufficient, the said report of the Drainage Commissioners was then considered by the Board and the following land owners filed remonstrances: Clinton B. Wood, Ellen J. Honnold, Anna Lafeber, Caroline Shul, Barbara E. Pierce, Amanda R. Miller, John Washington, and Hannah S. Campbell, each remonstrant objecting to the amount of his or her assessment as set out in the report of the Commissioners. The Board, after a careful hearing of each remonstrant under oath, made the following adjustment or change in the assessments as set out in the Commissioners' Report.

Clinton B. Wood.

Lots 7 & 8, square 6, ( A.L.I. ) reduced from \$ 11.00 to \$ 6.00.

Ellen J. Honnold.

Lot 17 (Lafeber Add.) reduced from \$5.50 to \$1.00

Anna Lafeber.

Lots 10, 11, 12, 13, 14, (Lafeber Add.) reduced from \$27.50 to \$10.00.

Caroline Shiel.

Lot 8, (Lafeber Add.) reduced from \$5.50 to \$4.00.

Barbara E. Pierce.

Lots 15, 16, (Lafeber Add.) reduced from \$ 11.00 to \$2.00

Amanda R. Miller.

Lot 4, square 6, (A.L.J.) reduced from \$5.50 to \$4.00

John Washington.

Lot 9, square 7, (A.L.I.) reduced from \$5.50 to \$3.00

Hannah S. Campbell.

Lot 11, square 7, (A.L.I.) reduced from \$5.50 to \$ 3.00.

The Board being fully advised in the premises, orders that the proposed drainage be constructed, and that the assessment made by the Commissioners of Drainage, as equalized and modified by the Board are hereby approved, and the Board assigns the proposed drainage to Chas. H. Wann for construction.

Sept 9 - 1899  
Report approved and  
viewers ordered to  
make final report  
Thurs. Sept 21 - 1899

Wm W Smith P.B.

ELB/W - 150 to 155

In the viewers would further report that in our opinion it is impracticable to allot said ditch for construction for the reason that the lands assessed include many town lots and small tracts of land, and the allotments for the construction would to these, be very small, and the cost to the owners, and the cost of receiving the same by the Surveyor when completed would greatly increase the cost of said ditch. Therefore we recommend that said ditch be sold by the Auditor as provided by law in such cases.

Respectfully Submitted

### Stone Wall.

The stone wall to be built at station 20+53 on Arm No 3. of the John Kauffman ditch No 1 is to be transferred, or built at station 31+32 on said arm (or the end of this ditch) and joined to the wall at station 26 on John Kauffman Main Ditch, Dimensions of wall 2 x 7 x 15 feet.

Said wall to be built of field rock or ragerheads laid up in mortar made from one part portland Cement to 3 parts good sharp sand.

The length of said ditch is 1077 feet  
The fall of the established grade is  $\frac{15}{100}$  ft to the 100 feet.

### Kind of Tile.

From Station 0 to station 11 shall be constructed with drain tile and from station 11 to station 11+32 with sewer tile.

also shown in a tabular statement in this report. After a full<sup>and</sup> careful view and examination we are of the opinion that the drain as located by the survey will be of public utility<sup>and</sup> will be a benefit to the general health, will benefit two or more public highways and that the cost of construction will not exceed the benefits therefrom and that said drainage will best be accomplished by a tile drain from its source to its outlet described as follows: Commencing at stake 20+55 on Arm No 3. of John Kauffman Ditch at or near a point 473 ft south of the line dividing the northwest<sup>and</sup> the southwest quarters of section 1. Township 20 range 4 east, running thence  $S 4^{\circ} 30' E$  1045 feet thence east 32 feet<sup>and</sup> terminating at stake 26 on John Kauffman Main Ditch No 1. being 1077 feet in length.

Said ditch to consist of 1 row of 18 inch tile from its source to terminus. All tile used must be of first class quality laid in ditch in a true line and at the proper grade and left uncovered until inspected by the engineer in charge. after being accepted by the engineer, they must be covered to a depth, to the satisfaction of the engineer,

For further Specifications  
See page Next of this Report.

Viewers Report of John Kauffman Ditch  
No 2.

To the Honorable Board of Commissioners of  
Hamilton County Indiana  
We, the undersigned, appointed by  
this Court, at its June Regular Term 1899,  
to view a drain described in the certified  
copy of a petition<sup>and</sup> order of Court for a  
ditch by John Kauffman and others,  
handed us by the Auditor, would  
represent that according to said order  
we, on the day named therein, to wit:  
the 19th day of June 1899, in company  
with J. A. Mitchell, a civil engineer, made  
an accurate survey of the line of said  
proposed ditch from its source to its  
outlet. A plat of said ditch is filed  
herewith including the survey by the  
engineer, marked "Exhibit B." We caused  
stakes to be set along said line, each  
one hundred feet, numbering down stream  
as shown by plat. We also made a com-  
putation of the total number of cubic yards  
of earth to be removed from said drain  
and estimated the total cost of the construction  
of the work at \$410.<sup>81</sup> Dollars.

We have also set out by a statement below  
the names of the owners of lands benefited  
with a description of each tract of land,<sup>and</sup>  
the amount assessed against each tract.  
The depth of cut, the width at bottom, and  
and width at top along said drain is

We the undersigned appointed as viewers  
on the John Kauffman Ditch No. 2 do  
each of us solemnly affirm that we  
will perform said duties to the best  
of our knowledge and ability as we  
shall answer to the State of Indiana  
on the charge of perjury.

Subscribed and affirmed to before me this  
19<sup>th</sup> day of June 1899

J. A. Mitchell,  
Surveyor General

In Commissioners Court June Reg. Term 1899,  
To Milton Evans, J. B. Foulke and Layton McDevall  
viewers and J. A. Mitchell engineer,

You are hereby notified that you were appointed  
by the Board of Commissioners of Hamilton County  
Indiana at their Regular June Term 1899 to  
view a ditch or drain as petitioned for by John  
Kauffman. Said proposed ditch located as follows:-  
Beginning at stake 20+55 ft on what is known as  
Arm No. 3 of a public drain now in process of  
construction, known as the John Kauffman Ditch,  
said beginning being 590 ft south of a point  
where the east and west quarter section line,  
Section 1 T. 20 North Range 5 east crosses the  
center line of the L. E. & W. R. Road right of  
way, and at the head of an open drain on the  
west side of the track of said railroad,  
thence south along said open ditch to a point  
where said open ditch joins the John  
Kauffman Main Ditch, said terminus being at  
stake 26 on said Main Ditch. Said ditch to be  
a tile drain.

You will meet at the County Surveyor's  
Office on the 19<sup>th</sup> day of June 1899 at 9 o'clock  
A.M. there and there be qualified by  
the engineer and proceed with your duties  
according to law and file your report with  
the Auditor.

Witness my hand and official  
seal this 8 day of June 1899,  
Calvin Studevant  
Auditor Hamilton Co.

In the Matter of the John Kauffman Drain.

Report of Ditch Viewer's  
Commissioner's Court

Filed September 12<sup>th</sup> 1898.

Calvin Studevant Auditor

Ell B. 11 - From 227 to 237.

# Viewer's Report of John Kauffman Ditch

To the Honorable Board of Commissioners of Hamilton County Ind.  
We, the undersigned, appointed by  
this Court, at its April Regular Term, 1898,  
to view a drain described in the certified  
copy of a petition and order of Court.

for a drain, by John Kauffman and others,  
handed us by the Auditor would represent  
that according to said order we, on the day  
named therein, to wit: the 14<sup>th</sup> day of April, 1898,  
in company with J. A. Mitchell, a Civil Engineer  
made an accurate survey of the line of  
said proposed drain from its source  
to its outlet. The plot of said drain  
is filed herewith including the survey  
by the Engineer marked "Exhibit" B.

We caused stakes to be set along  
said line, each one hundred feet, numbering  
down stream as shown by plot. We also  
made a computation of the total number of  
cubic yards of earth to be removed from  
said drain and estimated the total cost  
for the construction of the work at

\$1354.71

~~We also appointed~~  
~~and set apart to each parcel of land a share~~  
~~of said work in proportion to the benefits~~  
~~received, all of which will fully appear by a~~  
~~tabular statement in this report.~~ We have  
also set out by a statement below, the names of  
the owners of lands benefited with a description  
of each tract of land, and the amount assessed

against each tract. The depth of cut, the width at bottom, and width at top along said drain is also shown in a tabular statement in this report. After a full and careful view and examination, we are of the opinion that the drain as located by the survey will be of public utility and will be a benefit to the general health, will benefit two or more public highways and that the cost of construction will not exceed the benefits derived therefrom, and that said drainage will best be accomplished by a main ditch and four arms. Lining Main ditch from station 0 to station 26. and constructing an open drain from station 26 to terminus, and by lining all said arms except arm No 3, which is to be an open drain from station 20+55 to 31+32 or Terminus.

Said main ditch & arms are located as follows: Main Ditch commencing at a point 20 feet east of the North East corner of Lot No 12 Block No 8, Atlanta Improvement Company's Addition to the town of Atlanta Indiana, thence  $\text{S } 3^{\circ} 30' \text{ E } 500$  feet, thence  $\text{S } 47^{\circ} \text{ W } 700$  feet, thence  $\text{S } 3^{\circ} 30' \text{ W } 800$  feet, thence  $\text{S } 5^{\circ} 30' \text{ E } 600$  feet, thence  $\text{S } 50^{\circ} 45' \text{ E } 200$  feet, thence  $\text{S } 21^{\circ} 30' \text{ E } 100$  feet, thence  $\text{S } 8^{\circ} \text{ E } 400$  feet, thence  $\text{S } 60^{\circ} 30' \text{ W } 100$  feet, thence  $\text{S } 6^{\circ} \text{ W } 190$  feet, thence  $\text{S } 20^{\circ} \text{ W } 120$  feet, thence  $\text{S } 5^{\circ} 30' \text{ E } 180$  feet, thence  $\text{S } 81^{\circ} 30' \text{ E } 300$  feet, thence  $\text{S } 68^{\circ} \text{ E } 250$  feet, thence  $\text{S } 89^{\circ} \text{ E } 150$  feet, and terminating at a point at stake 48 about 20 rods south and 20 feet east of the NE. corner of the NW $\frac{1}{4}$  of section 12 Township 20 North Range 4 East

Arm N<sup>o</sup> 1.

Commencing at a point 20 feet north of the North East Corner of Lot N<sup>o</sup> 12 Block N<sup>o</sup> 9 Atlanta Improvement Company's addition to town of Atlanta Ga. Thence S 86° 30' W 200 feet, Thence S 2° E 200 feet, Thence S 5° 30' E 600 feet, Thence S 3° 30' W 100 feet Thence S 5° 30' E 820 feet Terminating on main ditch at Station 20+20

Arm N<sup>o</sup> 2.

Commencing at a point on the line dividing the North West Quarter and South West Quarter of Section 1 Township 20 North Range 4 East, near the West line of the E B W R. R. Right of way. Thence S 4° 30' East 478 feet terminating on Arm N<sup>o</sup> 3. at Stake N<sup>o</sup> 20+55 feet.

Arm N<sup>o</sup> 3.

Commencing at a point 2 3/4 rods South of Main Street on the East side of the Atlanta & Arcadia Gravel Road at the property line of Lots, Thence N 63° 30' E 160 feet, Thence N 50° 45' E 120 feet Thence N 84° 15' E 120 feet, Thence S 36° 30' E 40 feet Thence S 3° E 1260 feet, Thence S 35° 30' E 355 feet Thence S 4° 30' E 1045 feet Thence East 32 feet terminating on Main Ditch at Stake 26.

Arm N<sup>o</sup> 4.

Commencing at a point on the west side of the Atlanta & Arcadia Gravel Road, near where said road crosses the line dividing the North West Quarter & South West Quarter of Section 1 Township 20 North Range 4 East. Thence S 71° 30' E 100 feet Thence S 88° E 250 feet Thence S 44° E 245 feet and terminating on Arm N<sup>o</sup> 3 at Stake N<sup>o</sup> 17.

## Manner of Construction.

Said Main Ditch to consist of one row 8 in tile from stake 0 to 5. and one row 15 in tile from stake 5 to Stake 9+32 feet and one row 18 in. tile from stake 9+32 feet to stake 20. and one row 20 in tile from stake 20 to Stake 26, from stake 26 to stake 4.8. or terminus, to be an open ditch one foot wide in bottom with side slopes 1 to 1 or 45°.

At Stake 5 a Catch basin to be built of brick layed in portland Cement, dimension  $6 \times 2\frac{1}{2} \times 2\frac{1}{2}$  feet. at stake 9+32 feet another catch basin built of brick layed in portland Cement, dimension  $6\frac{1}{2} \times 2\frac{1}{2} \times 2\frac{1}{2}$  feet said basins to extend from 2 feet below the grade line of ditch to the surface of the ground and to be covered with an iron grating lid.

There is to be a connecting sewer tile or Y for receiving Arm 1. dimension  $20 \times 12$  inch.

There is to be built at Station 26, a retaining wall of stone layed up in mortar made from 1 part portland Cement to 3 parts good sharp sand. dimension  $15 \times 7 \times 2$  feet.

Arm No 1. Consists of one row 10 in from stake 0 to 3 and one 12 in tile from stake 3 to stake 20+20

Arm No 2 Consists of one row 10 in tile throughout

Arm No 3 Consists of one row 15 in tile 0 to 20+55 feet, with a catch basin at stake 0. dimension  $2\frac{1}{2} \times 2\frac{1}{2} \times 7$  feet to be constructed of brick layed in portland Cement, built from surface to 2 feet below grade line of ditch, and covered with an iron grating lid. There is to be a retaining wall of stone at stake 20+55 feet, layed up in mortar made from 1 part Portland Cement to 3 parts good sharp sand. dimension of wall.  $15 \times 3\frac{1}{2} \times 2$  feet.

Arm No 4 Consists of one row 12 in. tile throughout.

The length of said Main ditch as located is 4800 feet  
The fall of the established grade is  $8\frac{50}{100}$  feet  
From station 0 to Station 16 is  $3\frac{0}{100}$  feet per 100 feet  
" " 16 to Station 26 "  $1\frac{0}{100}$  " " "  
" " 26 to Station 44+80 "  $2\frac{0}{100}$  " " "

The length of Arm No 1 as located is 2020 feet  
The fall of the established grade is  $4\frac{5}{100}$  feet.  
From 0 to station 20+20 feet is  $2\frac{0}{100}$  feet per 100 feet.

The length of Arm No 2 as located is 473 feet  
The fall of the established grade is 1. foot  
From 0 to Stake 4+73 feet is  $2\frac{0}{100}$  feet per 100 feet

The length of Arm No 3 as located is 3132 feet.  
The fall of the established grade is  $5\frac{25}{100}$  feet  
From 0 to Stake 31+32 feet is  $1\frac{0}{100}$  feet per 100 feet

The length of Arm No 4 as located is 595 feet  
The fall of the established grade is  $9\frac{0}{100}$  feet  
From 0 to Stake 5+95 is  $1\frac{0}{100}$  feet per 100 feet.

In the views would further report that in our opinion it is impracticable to allot said ditch for construction for the reason that the lands assessed include many town lots and small tracts of land, and the allotments for the construction would, to these, be very small, and the cost to the owners, and the cost of receiving the same by the Surveyor when completed would greatly increase the cost of said ditch therefore we recommend that said ditch be sold by the Auditor as provided by law in such cases

Respectfully Submitted,

SURVEYOR'S OFFICE

Re: Miller-Carson-Whisler-Brenner

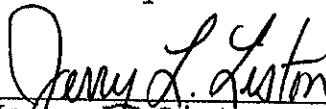

During an investigation of the Miller-Carson-Whisler-Brenner Drain in 1988, the Hamilton County Surveyors Office discovered the assumed location of the drain across the old school property in Atlanta was incorrect.

The drain was found to cross the NW corners of tracts III & IV a little further to the north than the map indicated. The drain which starts on the west side of John Street and runs in a northeasterly direction across John Street to a manhole structure on tract III of the school property. The tile continues out of the manhole in an east northeasterly direction across the school and Lee properties to a manhole structure at the west side of Walnut Street where it continues on to its termination.

The Hamilton County Surveyors Office has no problem with the sale of this tract or the construction of a residence on these tracts as long as there is no encroachment of the statutory easement that protects this drain. The drain is protected under IC 36-9-27-33 of the Indiana Drainage Code.

If you have any question concerning this letter, please contact the Hamilton County Surveyors Office at 776-9626.

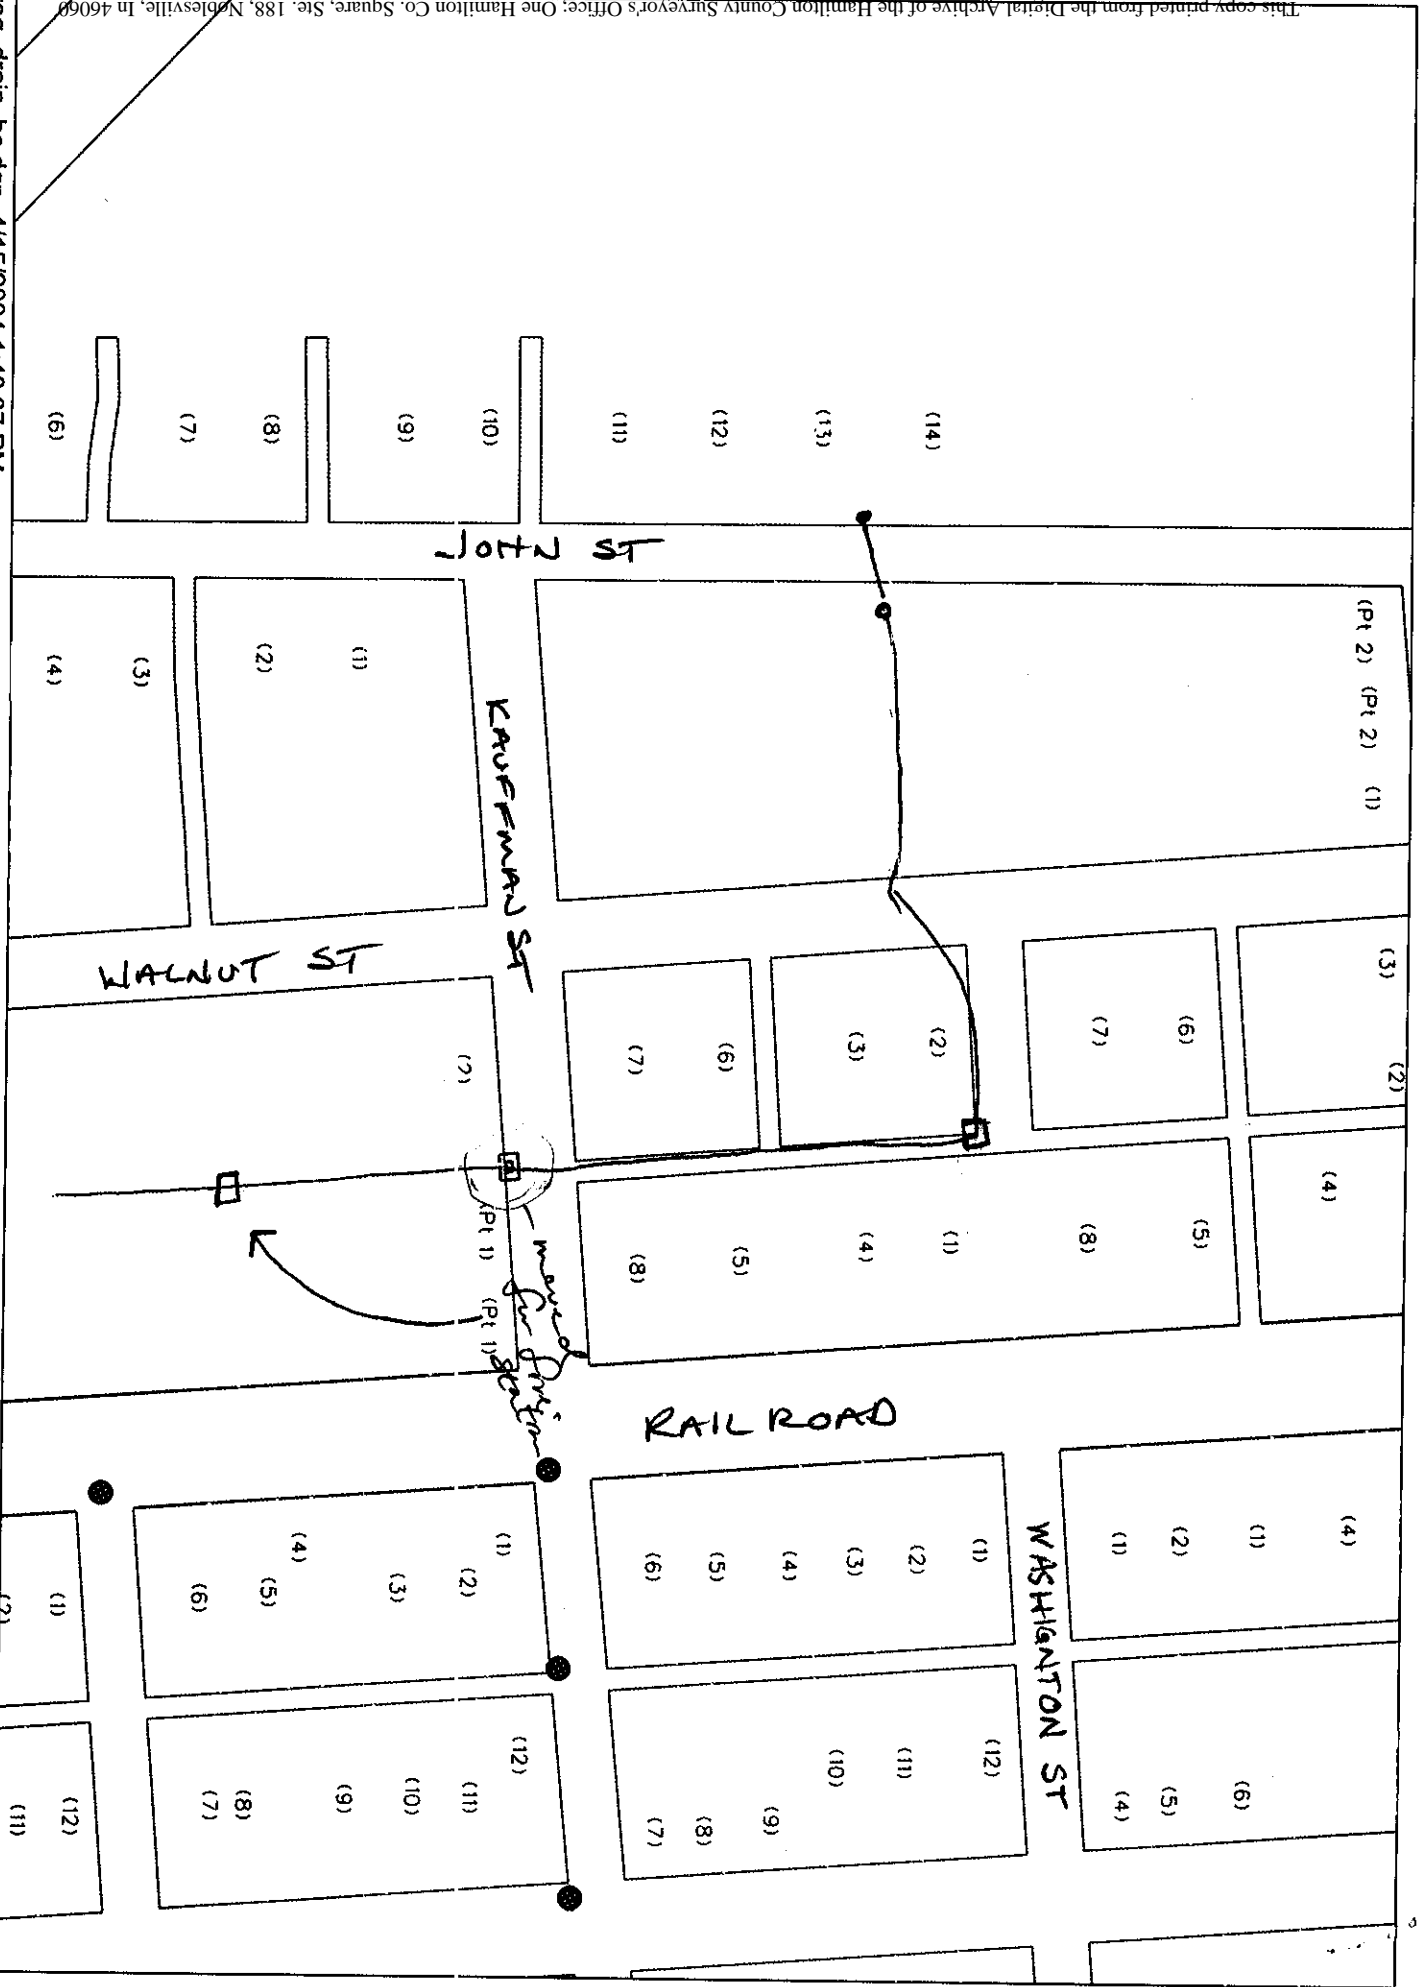

Sincerely

  
\_\_\_\_\_  
Jerry L. Liston,  
Inspector

RE: Miller-Carson-Whisler-Brenner Drain

Attached is a non-enforcement request for the Miller-Carson Drain filed by Brian Coleman. The request is for the proposed residence on Tract 02-01-01-07-009.000. The residence will be located twenty-one (21') feet from the drain.

Upon review of the request, I believe that approval of the request will not be detrimental to the future maintenance or possible reconstruction of the drain. Therefore, I recommend the Board approve the request with the following contingency.

# BOUNDARY & CONSTRUCTION CONTROL SURVEY

Lot Number 10, Block 11, Atlanta Improvement Company Addition, as per plat thereof recorded in Deed Record 58, Pages 14-15 in the records of Hamilton County, Indiana.

### SURVEYOR'S REPORT

1) In accordance with Title 865, Article 1.1; Chapter 12, Section 1 through 34 of the Indiana Administrative Code, the following observations and opinions are submitted regarding the various uncertainties in the locations of the lines and corners established on this survey as a result of:

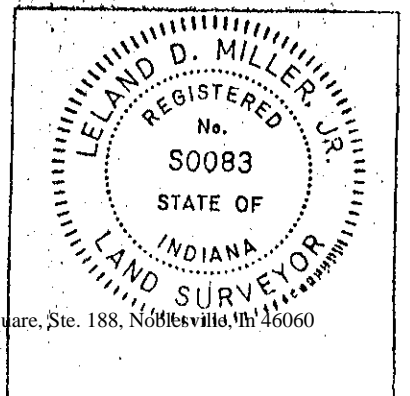

- a) Variances in the reference monuments;
- b) Discrepancies in record descriptions and plats;
- c) Inconsistencies in lines of occupation and;
- d) Random errors in measurement (Theoretical uncertainty);

The theoretical uncertainty (due to random errors in measurement) of the corners of the subject tract established by this survey is within the specifications for a Class B Survey (0.25) feet as defined in IAC 865.

Existing iron rods in the vicinity of Lot 10 and the existing railroad were used to verify the location and dimensions of said Lot 10.

No additional uncertainties were discovered at the time of this survey.

This plat of a boundary survey and construction control survey represents a survey made under my supervision with corners established as shown and is true and correct to the best of my knowledge.
