Re: U.G. Mitchner Drain

Attached is a outlet request from the Carmel-Clay Schools to outlet a storm sewer into the U.G. Mitchner Drain. Upon review of the request, I believe that the outlet will not overload the drain nor introduce harmful pollutants into it. Therefore, I recommend approval of the outlet.

I recommend inclusion of this system into the regulated drain system as an arm to the Mitchner when the Mitchner Drain is reconstructed. At this time the Mitchner Drain is number 33 on the reconstruction classification list.
