Re: Charles Osborne & J. R. Collins #2 Drain

Attached is a petition and plans for the proposed relocation of the Osborne & Collins Drain. The relocation is being proposed by CEC Associates. The proposal is to intercept Arm 3 of the Osborne-Collins Drain at the south right of way of 156th Street and convert a portion of the open ditch to a 30" storm sewer. Also rip rap 240 feet of the existing open ditch from the outlet of the new storm sewer outlet to Lake #4 in Common Area #1 of Centennial Section 2.

This line will consist of the following:

30" RCP - 50 ft

This proposal will not change the drains total length.

The cost of the relocation is to be paid by CEC Associates. Because the project is to be paid by the petitioner and is within the boundaries of the petitioner's property, the project falls under the requirements as set out in IC 36-9-27-52.5. Therefore, a hearing is not required for the petition.

The petitioner has provided the performance bond as follows:

Name of Bonding Co.: Developers Surety & Indemnity Co.
Bond #: 8877165
Bond Date: October 8, 2002
Bond Amount: \$364,091.00

This bond includes the work to be done for storm sewer facilities for Centennial Drain, Section 8.

I recommend approval by the Board at this time.

Sincerely,

Kenton C. Ward
Hamilton County Surveyor
