RE: Overman-Harvey Drain Village Farms - Section 12

Attached are the As Builts, Certificate of Completion and Compliance, and other information for the Village Farms, Section 12 Arm of the Overman-Harvey Drain. An inspection of the drainage facilities for this section has been made and the facilities have been found to be complete and acceptable.

The system as constructed consists of the following:

| 12" | RCP | 368 | feet | 24" | RCP | 617 | feet |
|-----|-----|-----|------|-----|----------------------|------|------|
| 15" | RCP | 734 | feet | 27" | RCP | 571 | feet |
| 18" | RCP | 340 | feet | 6" | SSD | 4850 | feet |
| 21" | RCP | 22 | feet | | | | |

The total length of this Section is 7502 feet.

The system as constructed corresponds to the preliminary system set out in my report dated October 15, 1979. The Board held a hearing in this matter on November 19, 1979, at which time the Board approved all proposed sections from Section 4 through Section 12 for construction.

The subsurface drains shown on the As Builts are those which will be maintained. All are in the road Right-of-Way. The portions to be maintained are those portions of the main lines which are within R/W or drainage easement. Laterals from the main line shall not be part of the regulated drain.

The bond or letter of credit from National City Bank, number 44196 dated April 29, 1993, in the amount of \$111,829.00, has been recommended for release on April 29, 1994.

The non-enforcement request was approved by the Board at its meeting on July 26, 1993.

. Overman-Harvey Drain, Village Farms - Section 12, July 27, 1995, Page 2

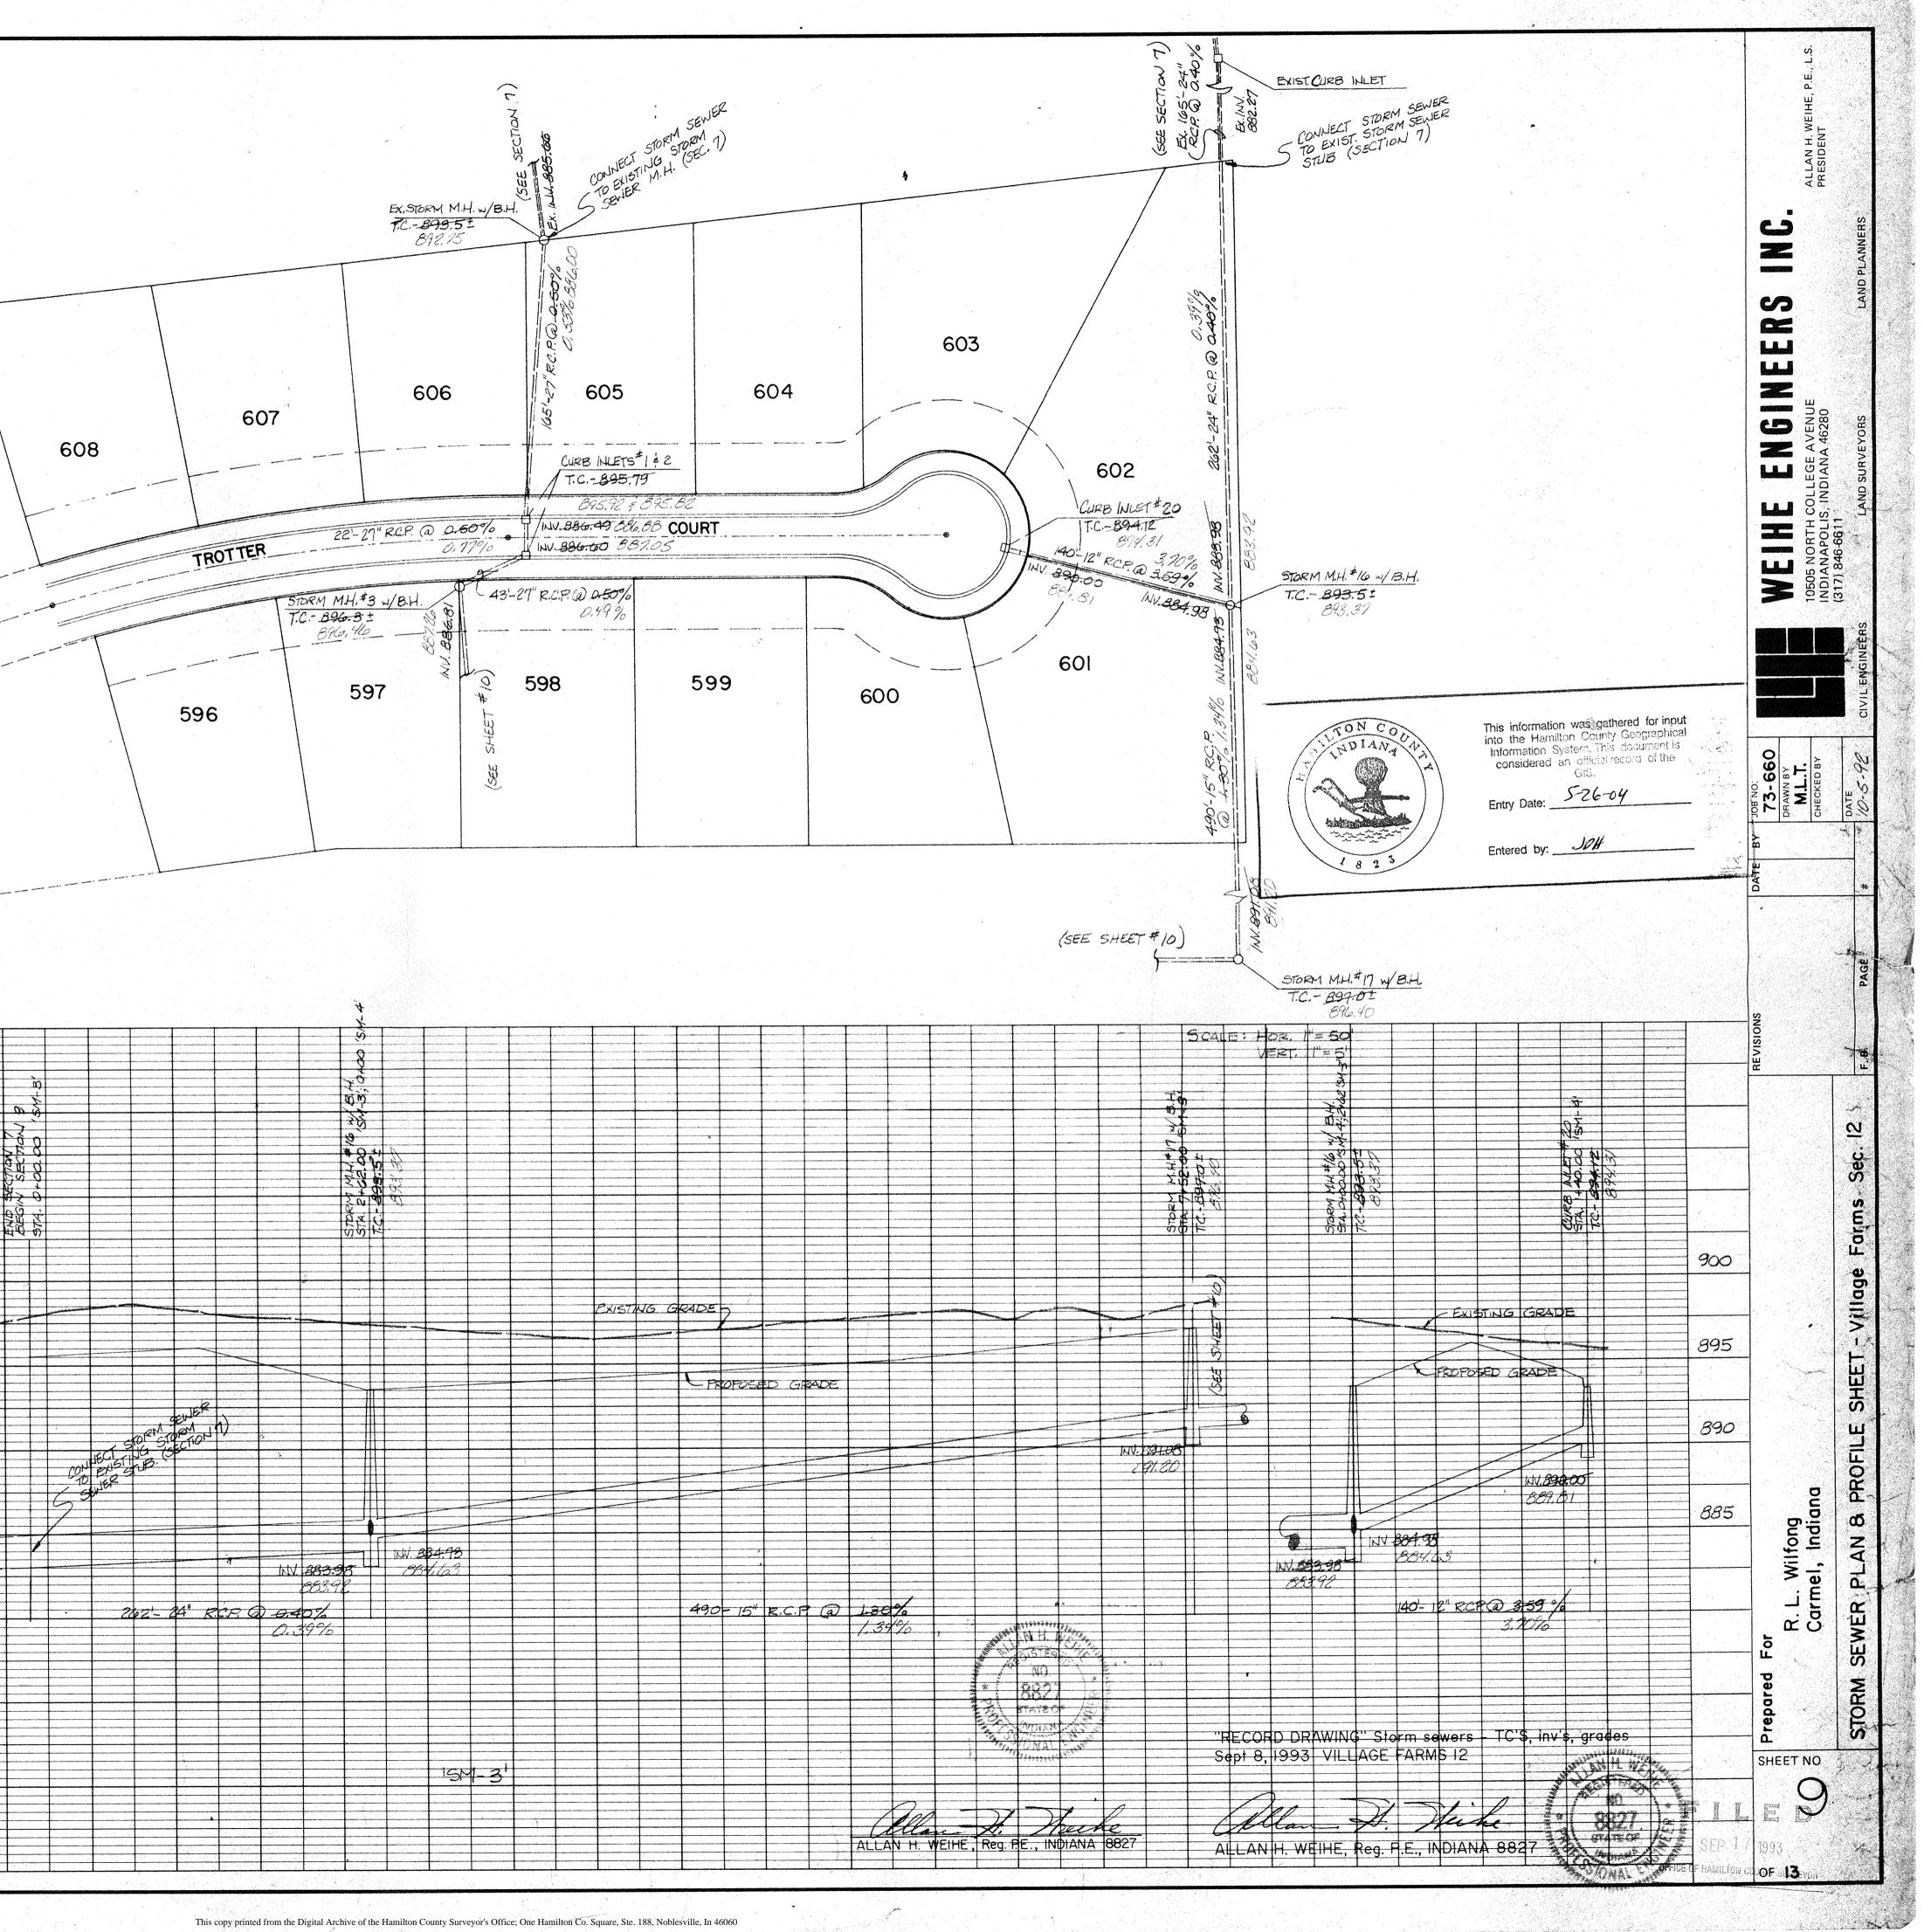

The drainage facilities for this section interceptS the Overman-Harvey legal drain at Village Farms Section 7. Section 12 ties in with Section 7 at the northeast corner of lot 605 and the southeast corner of lot 602, both of section 12. The original John Harvey drain was intercepted at Arm #1. The remaining portion of Arm #1 will be vacated from Station 0+00 to its terminus at Station 16+00. I recommend the Board accept the drainage facilities in this section.
