There was no one present for the maintenance hearing for the Clay Springs Drain-
Section 2.

There were no written objections on file.

The Surveyor presented his report to the Board. (H.I.)

"TO: Hamilton County Drainage Board
September 11, 1995
RE: Clay Springs Drain-Section 2 Arm

Attached is a petition, non-enforcement request, plans, calculations, quantity summary and assessment roll for Arm 2, Clay Springs Drain. I have reviewed the submittals and petition and have found each to be in proper form.

I have made a personal inspection fo the land described in the petition. Upon doing so, I believe that the drain is practicable; will improve the public health; benefit a public highway and be of the public utility; and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited.

The drain will consist of the following:

6"	SSD	3114 feet	12"	RCP	558 feet
8"	CMP	20 feet	15"	RCP	1062 feet

The total length of the drain will be 4754 feet.

The retention pond (lake) located in Lake Common Area-Block C is not to be considered part of the regulated drain. Only the inlet and outlet will be maintain as part of the regulated drain. The maintenance of the pond (lake) will be the responsibility of the Home owners Association. The Board will however, retain jurisdiction for ensuring the storage volume for which the lake was designed will be retained. Thereby, allowing no fill or easement encroachments.

The subsurface drains (SSD) to be part of the regulated drain are those located under the curbs and those main lines between lots or in rear yards. Only the main SSD lines which are located within the easement/right of way are to be maintained as regulated drain. Laterals for individual lots will not be considered part of the regulated drain. The portion of the SSD which will be regulated other than those under curbs are as follows: Rear of Lots 17-21; 21-23, Common Area C.

I have reviewed the plans and believe the drain will benefit each lot equally. Therefore, I recommend each lot be assessed equally. I also believe that no damages will result to landowners by the construction of this drain. I recommend a maintenance assessment of \$25.00 per lot, \$5.00 per acre for roadways, with a \$25.00 minimum. With this assessment the total annual assessment for this drain/this section will be \$575.00.

Parcels assessed for this drain may be assessed for William Creeks, Will Creek or Collins-Osborn Drain at sometime in the future.

I believe this proposed drain meeets the requirements for Urban Drain Classification as set out in IC 36-9-27-67 to 69. Therefore, this drain shall be designated as an Urban Drain.

I recommend that upon approval of the above proposed drain that the Board also approve the attached non-enforcement request. This request is for the reduction of the regulated drain easement to this easement widths as shown on the secondary plat for Clay Springs, Section 2 as recorded for this proposed drain for October 1995.

Kenton C. Ward
Hamilton County Surveyor
KCW/no

"

Mr. Holt made the motion to approve the Surveyor's report, seconded by Mr. Dillinger and passed.

The Board determined in writing that the costs, damages and expenses will be less than the benefits accruing to the owners of land benefited.

The Board then issued an order declaring the maintenance established and marked the findings and publicly announced the order at the meeting.

The Surveyor presented and recommended approval for the non-enforcement request on Clay Springs Drain-Section 2 to the Board.

Mr. Holt made the motion to approve the non-enforcement request on the Clay Springs Drain, Section 2, seconded by Mr. Dillinger and passed unanimously.

It was noted that Board Member Clark entered the meeting at this point.

The Surveyor presented and recommended approval on the non-enforcement request on the Elwood Wilson Drain from the City of Noblesville at its garage location.

Non-enf
Elwood I

Mr. Holt made the motion to approve the non-enforcement request on the Elwood Wilson Drain, seconded by Mrs. Clark and passed unanimously.

The Surveyor presented a correction for Shirley Calhoun's assessment on the J.M. Thompson Drain.

J. M. T
correct
assess

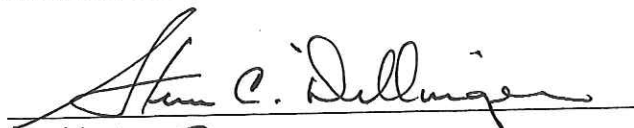

Mrs. Clark made the motion to approve the correction on the J. M. Thompson Drain

for Mrs. Calhoun, seconded by Mr. Holt and passed unanimously.

ORDER AND FINDINGS
CONCERNING THE RECONSTRUCTION &
MAINTENANCE OF THE
Clay Springs Drain-Arm #2 DRAIN

On October 23, 1995, 1995, the Hamilton County Drainage Board held a hearing on the reconstruction and maintenance report and schedule of assessments of the Clay Springs Drain-Arm #2 Drain. Evidence was heard and various questions were answered to the satisfaction of those present. The Board adopted the amended Schedule of Assessments after considering remonstrances and objections. The Board found that the reconstruction and annual maintenance assessments will be less than the benefits to the landowners and issue this order declaring that this reconstruction & maintenance fund be established.

RE: Clay Springs Drain-Section 2

Attached are As-Builts, Certificate of Completion and Compliance, and other information for Clay Springs Drain-Section 2. An inspection of the drainage facilities for this section has been made and the facilities were found to be complete and acceptable.

During construction, changes were made to the drain which will alter the plans submitted with my report for this drain dated September 11, 1995. The changes are as follows:

The corrected total of six (6") inch SSD is 4,268 feet.

The length of the drain due to the changes described above is now 5,908 feet.

The non-enforcement was approved by the Board at its meeting on October 23, 1995.

The Bond or Letter of Credit from First Federal Savings Bank, number 1048, dated October 28, 1993, NBD Bank, number SO 37106-Erosion Control, SO 37990-Storm Sewer; SO 37091-Monumentation, dated July 7, 1995 and June 23, 1995, in the amount of \$12,946.00, and \$54,042.00 and \$1,000.00 have expired.

I recommend the Board approve the drains construction as complete and acceptable.

Map Correction-Field Verification

Drain Number: 261

Drain Length: 5908

Drain Name: Clay Springs (Sec. 2 Arm)

Change +/-: +607

Date: 10-09-2003

New Length: 6515

Verified By: Suzanne L. Mills

Notes & Sketch:

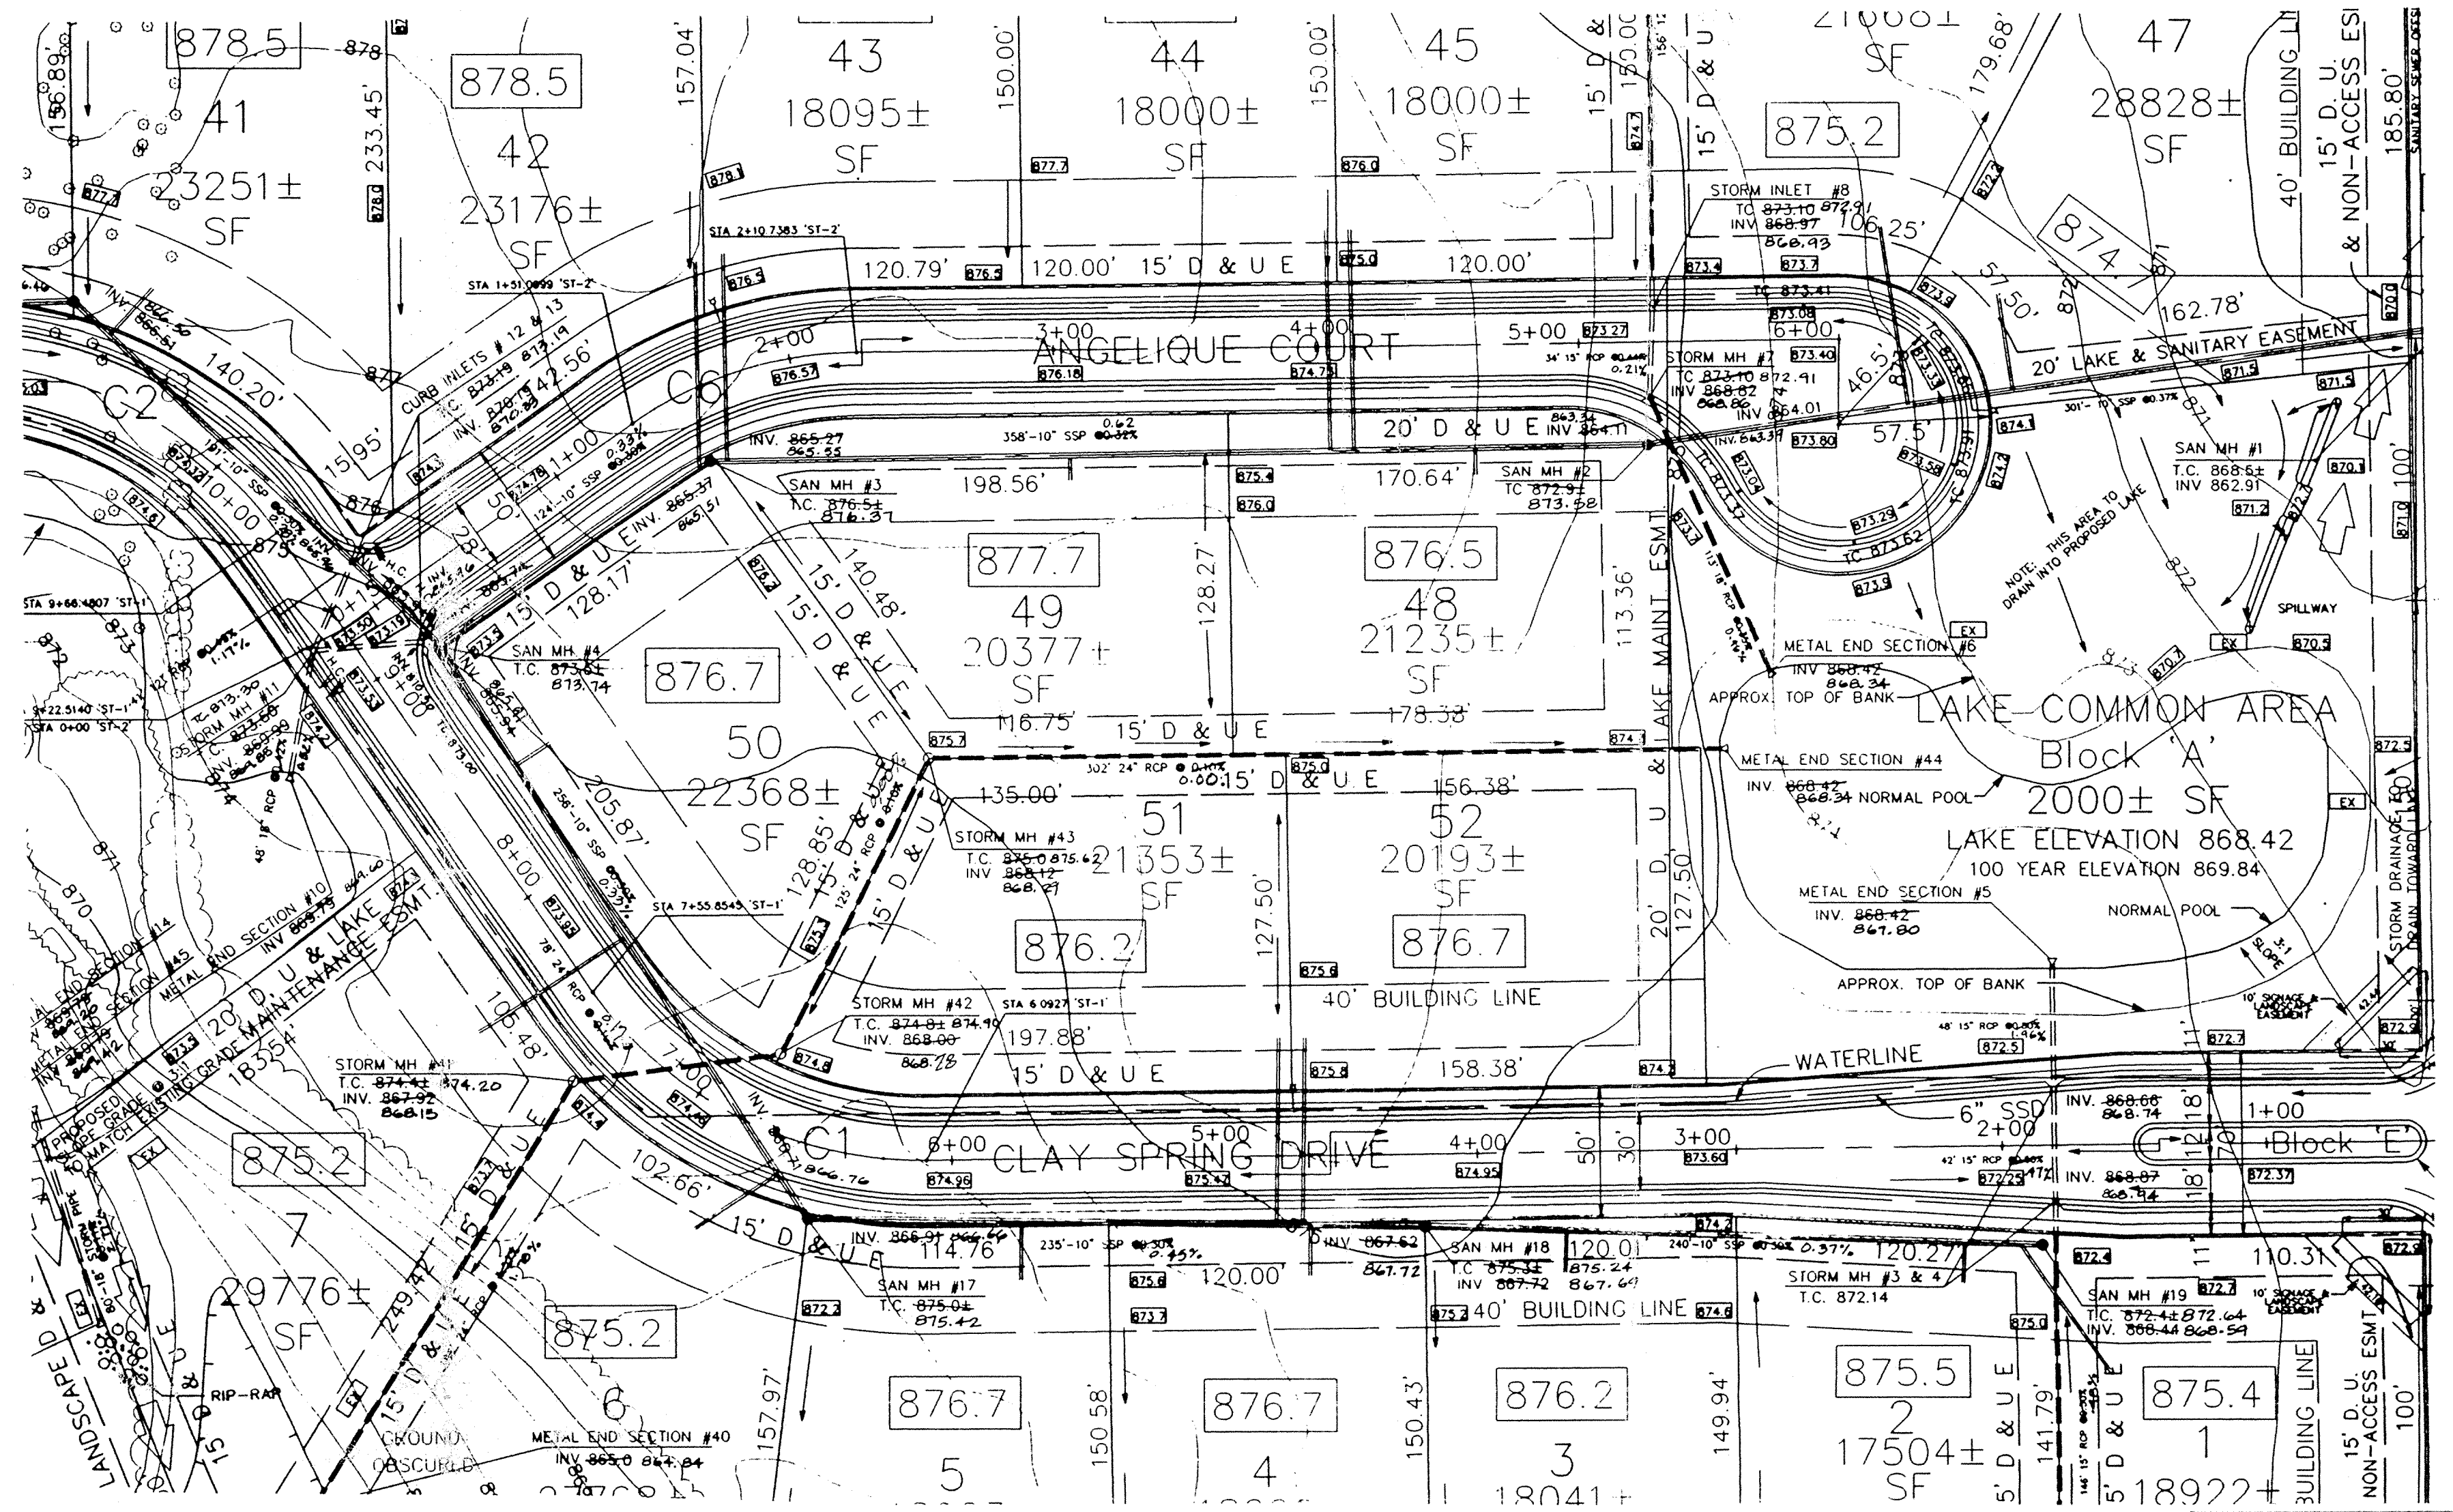

There were some changes to the Sec 2. Arm of the Clay Springs drain that was not noted on the final report. Those changes are as follows:

- * Section 2 secondary plat included 100 Feet more of street centerline which resulted in 200 Feet more of 6" ssd.
- * Rear Yard 6" ssd should have been reported as 1243 Feet.
- * 8" cm p should be classified as an outlet structure and thus taking away 20' of drain.

The new total of 6" ssd is now 4895
