TO: Hamilton County Drainage Board

RE: Centennial Drain, Centennial South Arm

Attached is a petition filed by Estridge Development Company along with a non-enforcement request, plans, calculations, quantity summary and assessment roll for the Centennial South Arm, Centennial Drain to be located in Washington Township. I have reviewed the submittals and petition and have found each to be in proper form.

I have made a personal inspection of the land described in the petition. Upon doing so, I believe that the drain is practicable, will improve the public health, benefit a public highway, and be of public utility and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited. The drain will consist of the following:

12" RCP	3,813 ft.	21" RCP	988 ft.
15" RCP	650 ft.	24" RCP	35 ft.
18" RCP	1,537 ft.	30" RCP	354 ft.

The total length of the drain will be 7,377 feet.

The retention ponds (Lakes 1 & 2) located in Common Area #1 are to be considered part of the regulated drain. Pond maintenance shall include the inlet, outlet, sediment removal and erosion control along the banks as part of the regulated drain. The maintenance of the ponds (lakes), such as mowing and aquatic vegetation control, will be the responsibility of the Homeowners Association. The Board will also retain jurisdiction for ensuring the storage volume for which the ponds (lakes) were designed will be retained, thereby, allowing no fill or easement encroachments.

The subsurface drains (SSD) under curbs are not to be part of the regulated drain. This is per the agreement between the developer, Estridge Development Company and the Hamilton County Commissioners on March 8, 1999. (See Commissioner's Minute Book 93, Pages 138-139).

I have reviewed the plans and believe the drain will benefit each lot equally. Therefore, I recommend each lot be assessed equally. I also believe that no damages will result to landowners by the construction of this drain. I recommend a maintenance assessment of \$50.00 per platted lot, \$5.00 per acre for roadways and common areas, with a \$50.00 minimum. With this assessment the total annual assessment for this drain/this section will be \$ 8,644.36.

The petitioner has submitted surety for the proposed drain at this time. The sureties which are in the form of a Performance Bond are as follows:

Agent: Fidelity & Deposit Company of Maryland  
Date: July 15, 2005  
Number: 7572222  
For: Storm Sewers  
Amount: \$555,000.00

Agent: Fidelity & Deposit Company of Maryland  
Date: July 15, 2005  
Number: 7572220  
For: Erosion Control  
Amount: \$75,000.00

Parcels assessed for this drain may be assessed for the Osborn & Collins or Williams Creek Drain at sometime in the future. Parcels assessed for this drain will also be assessed for the Hinshaw & Henley Drain.

I believe this proposed drain meets the requirements for Urban Drain Classification as set out in IC 36-9-27-67 to 69. Therefore, this drain shall be designated as an Urban Drain.

I recommend that upon approval of the above proposed drain that the Board also approve the attached non-enforcement request. The request is for the reduction of the regulated drain easement to those easement widths as shown on the secondary plat for Centennial South as recorded in the office of the Hamilton County Recorder.

I recommend the Board set a hearing for this proposed drain for March 27, 2006.

COUNTY OF HAMILTON )

TO: HAMILTON COUNTY DRAINAGE BOARD  
% Hamilton County Surveyor  
One Hamilton County Square, Suite 188  
Noblesville, IN. 46060-2230

In the matter of                    Centennial South                    Subdivision, Section  
                                  One                                    Drain Petition.

Petitioner is the owner of all lots in the land affected by the proposed new regulated drain. The drainage will affect various lots in                    Centennial South                    , a subdivision in Hamilton County, Indiana. The general route of such drainage shall be in existing easements and along public roads as shown in the plans on file in the Surveyor's Office.

Petitioner believes that the cost, damages and expenses of the proposed improvement will be less than the benefits which will result to the owners of the land likely to be benefited thereby. Petitioner believes the proposed improvements will:

- (a) improve public health
- (b) benefit a public street
- (c) be of public utility

Petitioner agrees to pay the cost of construction of the drainage system and requests periodic maintenance assessments by the Board thereafter.

The Petitioner also agrees to the following:

1. To provide the Drainage Board a Performance Bond or Non-Revocable Letter of Credit for the portion of the drainage system which will be made a regulated drain. The bond will be in the amount of 120% of the Engineer's estimate. The bond will be in effect until construction of 100% of the system is completed and so certified by the Engineer.
2. The Petitioner shall retain an Engineer throughout the construction phase. At completion of the project the Petitioner's Engineer shall certify that the drainage system which is to be maintained as a regulated drain has been constructed as per construction plans.
3. The Petitioner agrees to request in writing to the County Surveyor any changes from the approved plan and must receive written authorization from the County Surveyor prior to implementation of the change. All changes shall be documented and given to the Surveyor to be placed in the Drain file.
4. The Petitioner shall instruct his Engineer to provide a reproducible print on a 24" x 36" Mylar of the final design of the Drainage System. This shall be submitted to the County Surveyor prior to the release of the Performance Bond.
5. The Petitioner shall comply with the Erosion Control Plan as specified on the construction plans. Failure to comply with the Erosion Control Plan shall be determined by the Board as being an obstruction to the drainage system. The County Surveyor shall immediately install or repair the needed measures at Petitioners cost as per IC 36-9-27-46.

The Petitioner further requests that the Drain be classified as an Urban Drain as per IC 36-9-27-69(d).

**FINDINGS AND ORDER**  
**CONCERNING THE MAINTENANCE OF THE**  
**Centennial Drain, Centennial South Arm**

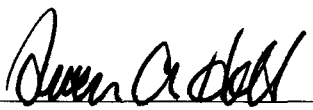

On this **27th day of March 2006**, the Hamilton County Drainage Board has held a hearing on the Maintenance Report and Schedule of Assessments of the **Centennial Drain, Centennial South Arm**.

Evidence has been heard. Objections were presented and considered. The Board then adopted the original/amended Schedule of Assessments. The Board now finds that the annual maintenance assessment will be less than the benefits to the landowners and issues this order declaring that this Maintenance Fund be established.

Attest: 

**Centennial South  
GASB 34 Calculation**

**Centennial Drain-Centennial South Arm:** 7,377 feet  
**Hinshaw-Henley Drain –Centennial South Relocation:** 3,977 feet

**Total Footage** = 11,354  
**Bond Amount** = \$ 525,000.00

**Centennial Drain-Centennial South Arm:**  $.65(\$525,000.00) = \$341,250.00$   
**Hinshaw-Henley Drain –Centennial South Relocation:**  $.35(\$525,000.00) = \$183,750.00$

Note: Bonds were posted at 120% of the engineers estimate. This dollar amount is based upon the engineer's estimate. ~~Also, on Engineer's Estimate 4<sup>th</sup> ssd was listed. This was subtracted from the above listed dollar amount.~~
