Re: Elwood Wilson Drain

Attached is a petition, non-enforcement and plans for the proposed relocation of the Elwood Wilson Drain. The relocation is being proposed by JAVCA LLP. The proposal is to reconstruct approximately 363 feet of existing drain by replacing the existing 18 inch tile with new 21 inch reinforced concrete pipe under a proposed parking area at the Arbortorium Banquet Center (parcel numbers 11-07-31-00-00-023.000 & 11-07-31-00-00-025.000).

The plan will consist of the following:

21" RCP 363 ft

The total length of new drain shall be 363 feet. This proposal will add 0 feet from the drains total length.

The cost of the relocation is to be paid by JAVCA LLP. Because the project is to be paid by the petitioner and is within the boundaries of the petitioners property the project falls under the requirements as set out in IC 36-9-27-52.5. Therefore, a hearing is not required for the petition.

The petitioner has provided the performance bond as follows:

Name of Bonding Co.:_	Metro Bank
Bond Number:	Letter of Credit #1154
Bond Date:	June 7, 2000
Bond Amount:	\$25,800.00
Bond Term (1 yr. max)	:June 7, 2001

I recommend approval by the Board of this time?

ton C⁄. Ward

Re: Elwood Wilson Drain: Arbortorium Relocation

Attached are as-builts, certificate of completion & compliance, and other information for the Arbortorium relocation of the Elwood Wilson Drain. An inspection of the drainage facilities for this section has been made and the facilities were found to be complete and acceptable.

During construction, changes there were no significant changes made to the drainage plans submitted with my report for this drain dated June 8, 2000.

Therefore, the portion of drain, which was relocated, remains at 363 feet.

The non-enforcement was approved by the Board at its meeting on June 26, 2000 and recorded under instrument #2000-00031892.

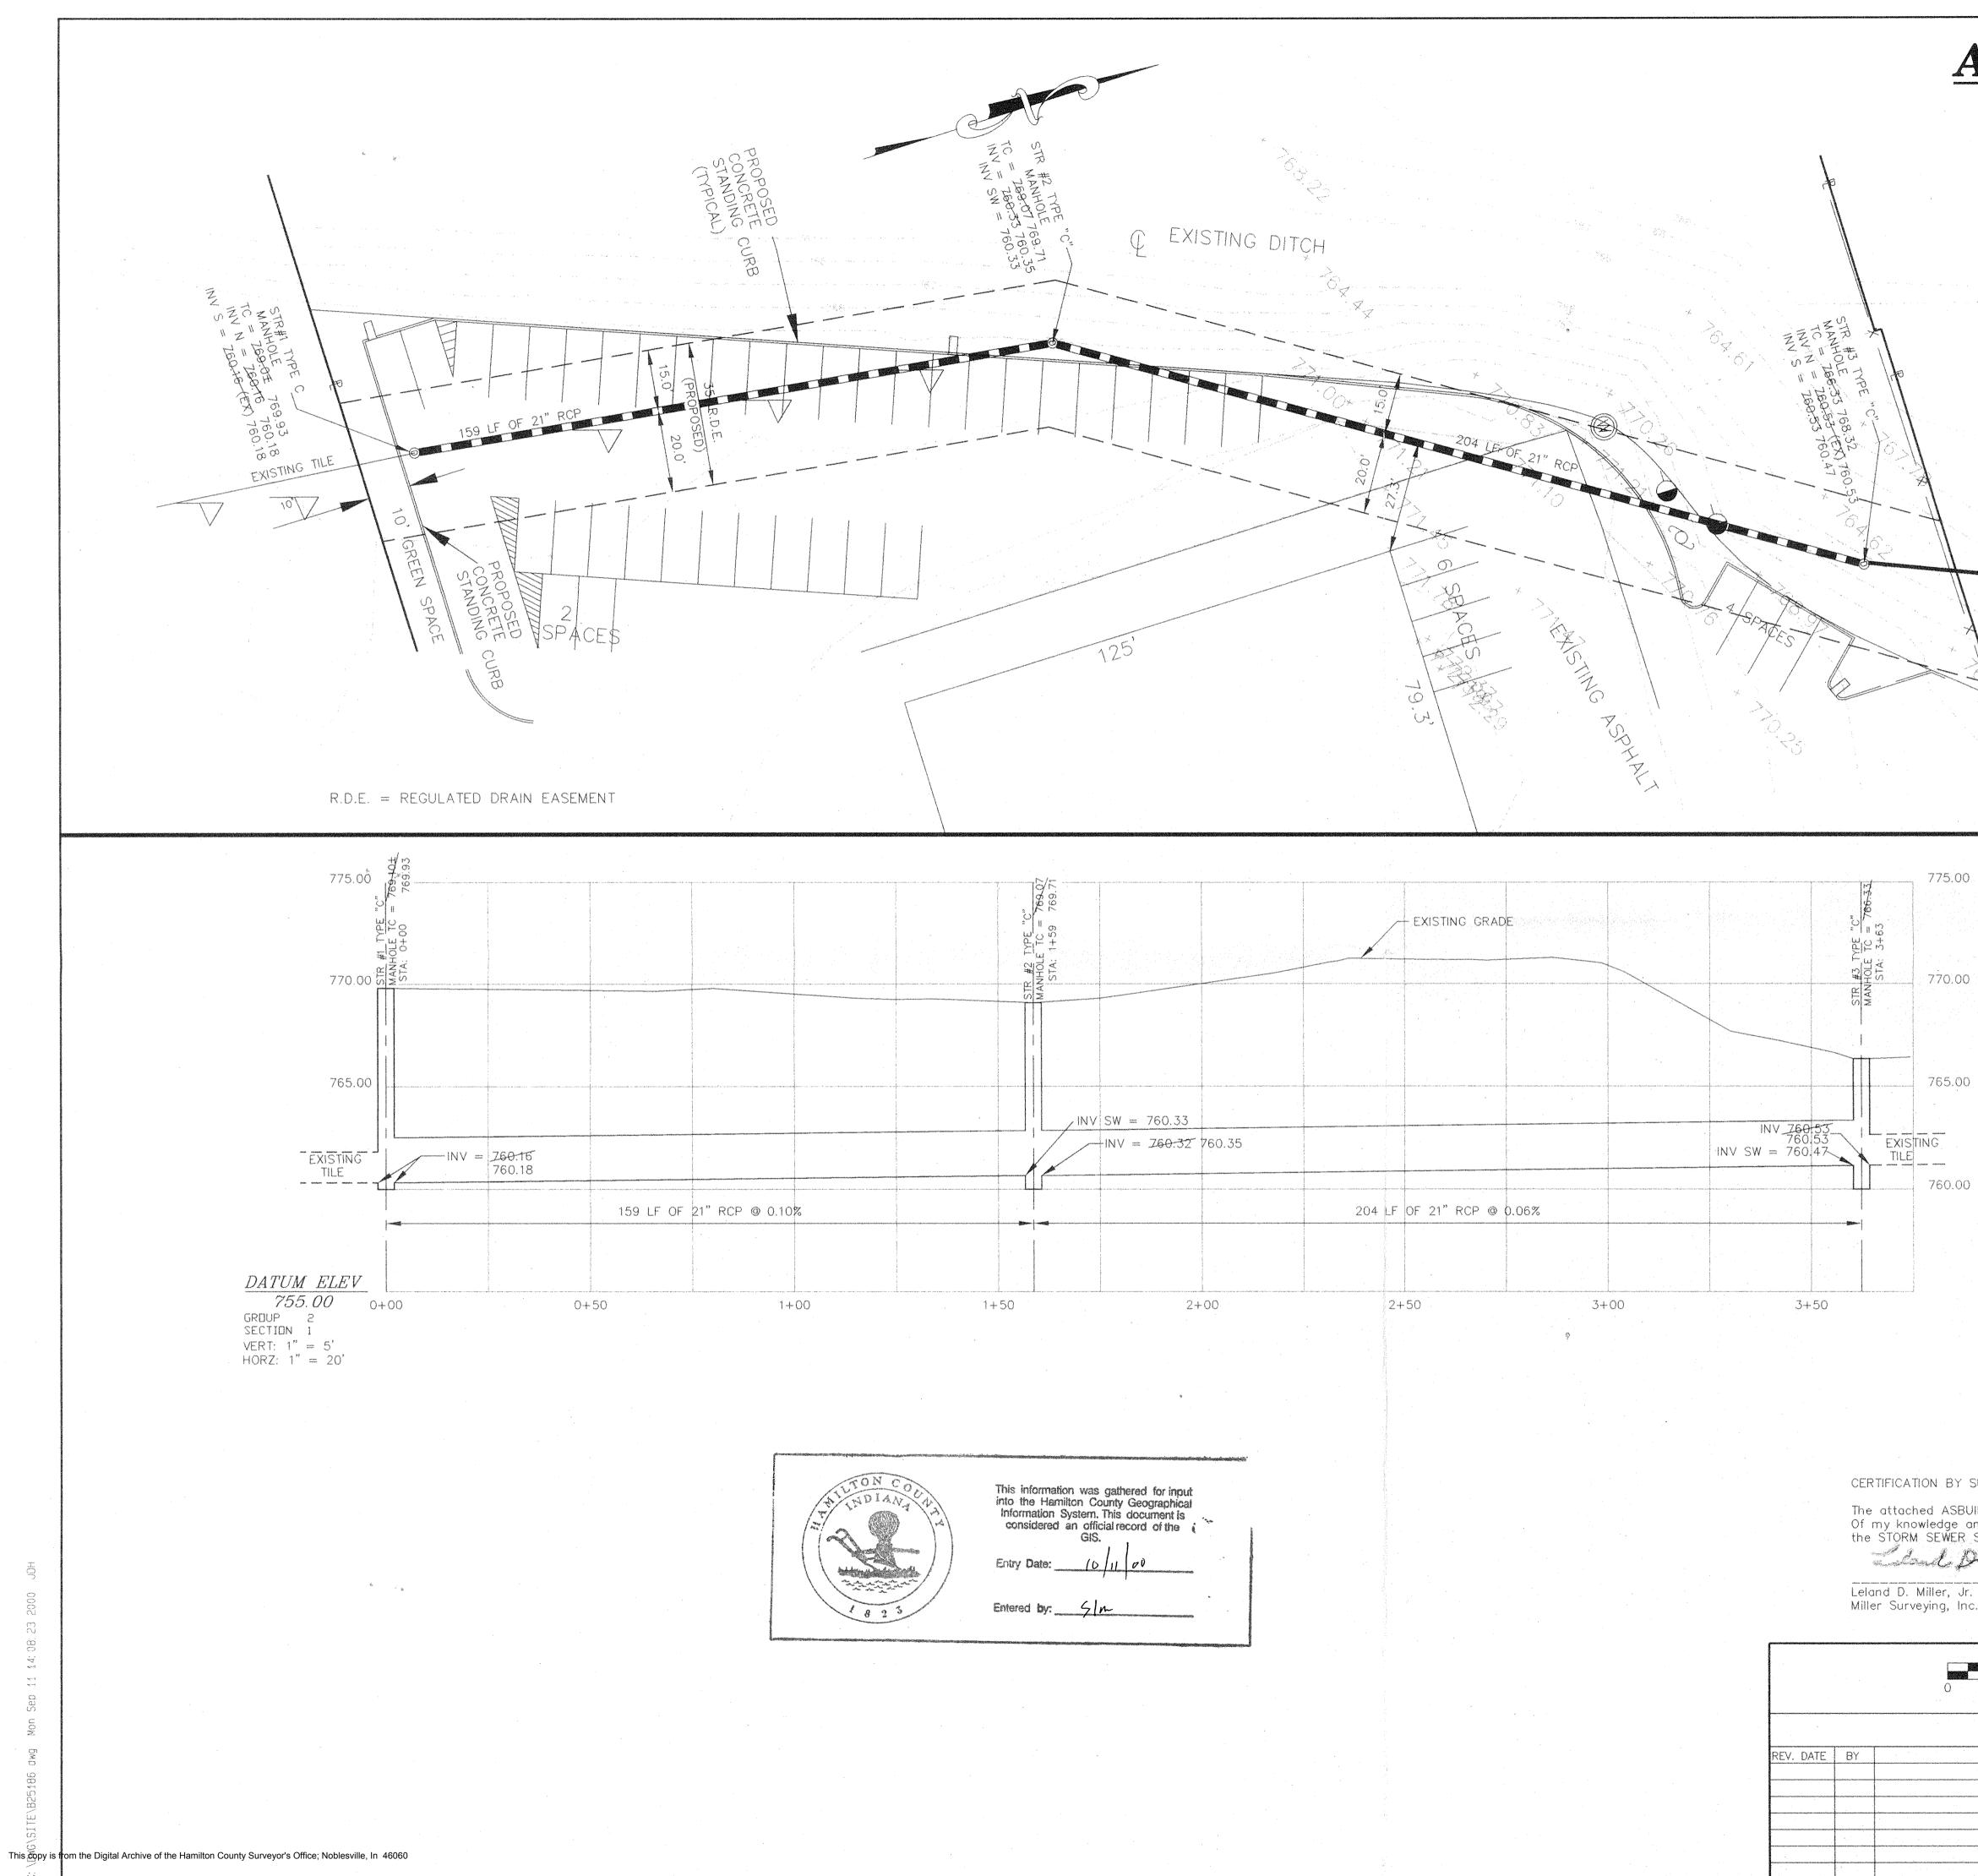

The bond or letter of credit from Metro Bank, number 1154; dated June 7, 2000; in the amount of \$25,800.00; was released October 9, 2000.

I recommend the Board approve the drain's construction as complete and acceptable.

Sincerely,

Kepton Č. Ward, Hamilton County Surveyor

KCW/slm
