To: Hamilton County Drainage Board

Re: Little Eagle Creek Drain, Stephens & C.J. Clark #73 Arm

Upon review of the drainage sheds, I believe that the Stephens & C.J. Clark Drain should be made an arm to the Little Eagle Creek Drain as the Stephens & C.J. Clark Drain is a tributary to the Little Eagle Creek Drain. This would also avoid a double assessment on the tracts currently assessed for the Stephens & C.J. Clark Drain when the remainder of the Little Eagle Creek Drain is assessed for maintenance.

The Stephens & C.J. Clark Drain was created in September 1882 per the Hamilton County Circuit Court. On September 18, 1972 the Board held a hearing to establish the drain maintenance assessment for the Stephens & C.J. Clark Drain (Drainage Board Minutes Book 1, Page 89). At present the Stephens & C.J. Clark Drain maintenance assessment affects 531.65 acres. The rate of assessment for the drain is set at \$10.00 per acre for roads, \$3.50 per acre with a \$15.00 minimum for residential and agricultural tracts, \$10.00 per acre with a \$75.00 minimum for commercial, institutional, and multi-family tracts, \$5.00 per acre with a \$35.00 minimum for platted un-regulated subdivisions, and \$10.00 per acre with a \$65.00 minimum for regulated drain subdivisions. This rate collects \$2,086.50 annually and the fund is currently in the red \$4,303.81. There is one (1) outstanding work order for this drain at this time.

The current maintenance assessment as per the existing rates set for the Little Eagle Creek Drain which are as follows:

1. Maintenance assessment for roads and streets are set at \$10.00 per acre.
2. Maintenance assessment for agricultural tracts are set at \$2.00 per acre with a \$15.00 minimum.

3. Maintenance assessment for non-platted residential tracts are set at \$2.00 per acre with a \$15.00 minimum.
4. Maintenance assessment for commercial, institutional and multi-family residential tracts are set at \$10.00 per acre with a \$75.00 minimum.
5. Maintenance assessment for platted lots in subdivisions whose drainage systems will not be part of the regulated drain shall be set at \$35.00 per lot/minimum. Common areas within non-regulated drain subdivisions shall be assessed at \$5.00 per acre with a \$35.00 minimum.
6. Maintenance assessment for platted lots within subdivisions whose drainage system will be part of the regulated drain shall be set at \$65.00 per lot/minimum. Common areas within the regulated drain subdivisions shall be set at \$10.00 per acre with a \$65.00 minimum.

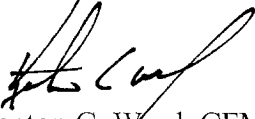

The total annual assessment for this arm will be \$1,365.12.

Collections will continue for this drain in 2010 and 2011 so that the current balance owed to the General Drain Improvement Fund is paid. Any future balance of the Stephens & C.J. Clark Drain shall be kept separate and these funds expended for needed maintenance on the Stephens & C.J. Clark Drain. This shall be done until the funds are exhausted. At that time funding for repairs shall then be taken from the Little Eagle Creek Drain fund.

Beginning in 2010 assessments for the drainage area of the Stephens & C.J. Clark Drain will also be made into the Little Eagle Creek Drain fund. No further maintenance collections for the Stephens & C.J. Clark Drain shall be made after 2011.

I recommend that the Board set a hearing for this consolidation for May 26, 2009.

Sincerely,

Kenton C. Ward, CFM
Hamilton County Surveyor

KCW/pll

FINDINGS AND ORDER

CONCERNING THE MAINTENANCE OF THE

Little Eagle Creek Drain, Stephens & C. J. Clark Arm

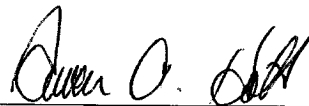

On this 26th day of May 2009, the Hamilton County Drainage Board has held a hearing on the Maintenance Report and Schedule of Assessments of the **Little Eagle Creek Drain, Stephens & C. J. Clark Arm**.

Evidence has been heard. Objections were presented and considered. The Board then adopted the original/amended Schedule of Assessments. The Board now finds that the annual maintenance assessment will be less than the benefits to the landowners and issues this order declaring that this Maintenance Fund be established.
